Notes to Financial and Operational Trends
AT&T Inc.

[1] See Discussion and Reconciliation of Non-GAAP Measures included in Form 8-K dated April 20, 2023. Additionally, see Non-GAAP Reconciliations on page 13 for certain business units for which historical results were recast in the Form 8-K dated March 3, 2023 (note 5).

[2] ASU No. 2020-06 requires that instruments which may be settled in cash or stock are presumed settled in stock in calculating diluted earnings per share. Reported diluted earnings per share reflects the dilutive impacts, where applicable, of the AT&T Mobility II LLC preferred interests and through 1Q23, these impacts were adjusted in calculating adjusted earnings per share resulting in no change to historical amounts. On April 5, 2023 we fully repurchased the Mobility II preferred interests. Beginning with the second quarter of 2023, our quarterly calculation of diluted earnings per share no longer reflects the dilutive potential of these instruments.

[3] Diluted Earnings Per Share Attributable to Common Stock - Continuing Operations is calculated as follows: Income from Continuing Operations minus net income from continuing operations attributable to noncontrolling interest and preferred stock dividends, divided by the weighted average number of shares outstanding - with dilution under ASU 2020-06. For 2Q21, noncontrolling interest includes $81M related to impairments recorded in discontinued operations. In periods with reported net loss (4Q22 and full-year 2022), Basic Earnings per Share is reported. In periods where the effect of ASU 2020-06 is antidilutive (2Q21), the assumed conversion of the Mobility preferred interests is excluded from our calculation. In 4Q and full-year 2022, the calculation of Basic earnings per share includes adjustment to carrying value of noncontrolling interest.

[4] Interest during construction is included in both Acquisitions and in Capital Expenditures (see Financial and Operating Statistics Summary on page 4).

[5] Effective for the quarter ended March 31, 2023, we modified our segment reporting and no longer record prior service credits to our individual business units or the corresponding charge to Corporate and Other. Prior service credits are, and will continue to be, recorded as other income in our consolidated income statement in accordance with U.S. generally accepted accounting principles. Historical reporting has been recast to remove prior service credits from all periods presented. This recast decreased our full-year Communications segment operating income and EBITDA (defined as operating income excluding depreciation and amortization) by approximately $2.4 billion in 2022 ($0.7 billion Mobility, $1.0 billion Business Wireline and $0.7 billion Consumer Wireline) and $2.1 billion in 2021 ($0.7 billion Mobility, $0.9 billion Business Wireline and $0.5 billion Consumer Wireline), with increases to Corporate and Other for a corresponding amount for each year. There was no impact to consolidated operating income and EBITDA. For Corporate and Other, prior service credits related to parent administration support ($0.2 billion in both 2022 and 2021) and our former U.S. video business ($0.1 billion in 2022 and $0.2 billion in 2021), which we included in our DTV-related retained costs, have also been recast to reflect this change, with an offsetting impact in the elimination of our reclassification.

[6] 1Q22 subscribers and connections include a reduction of 10,707k subscribers and connections (899k postpaid including 438k phones, 234k prepaid, 749k reseller, 8,825k connected devices) resulting from 3G network shutdown in February 2022. 3Q22 and 4Q22 also include adjustments of +169k and +360k connected devices, respectively, related to the 3G network shutdown. 1Q23 includes adjustments of +295k subscribers related to the 3G shutdown (+206k postpaid including +74k phones, and +89k connected devices).

[7] Churn is calculated by dividing the aggregate number of wireless subscribers who canceled service during a month by the total number of wireless subscribers at the beginning of that month. The churn rate for the period is equal to the average of the churn rate for each month of that period.

[8] For Mobility and Mexico, ARPU is defined as wireless subscriber revenues during the period divided by average wireless subscribers during the period. Wireless service revenues include subscriber revenues and other revenues. In Consumer Wireline, (1) Broadband ARPU is defined as Broadband revenues (see footnote 9 below) during the period divided by average Broadband connections (see footnote 9 below) during the period; (2) Fiber ARPU is defined as Fiber revenues in the business unit during the period divided by average Fiber connections during the period; and (3) Non-Fiber ARPU is defined as Non-Fiber revenues in the business unit during the period divided by average Non-Fiber connections during the period.

[9] Broadband revenues are comprised of revenues from Fiber and Non-Fiber subscribers and exclude DSL revenues, which are included in Legacy Voice and Data Services. Broadband connections and net adds exclude DSL. A Fiber Served Customer Location is defined as (1) where fiber has been built to a specific customer location, (2) the customer can place an order for fiber, and (3) service can be provisioned. Fiber penetration is calculated as Fiber connections divided by Fiber Served Customer Locations.

[10] Adjusted equity in net income from DIRECTV investment is calculated as equity income from DIRECTV reported in Equity in Net Income of Affiliates and excludes AT&T's proportionate share of the non-cash depreciation and amortization of fair value accretion from DIRECTV's revaluation of assets and purchase price allocation.

[11] 1Q23 Other Income (Expense) – Net includes holding gains from benefit-related investments which have been excluded from adjusted EPS. See Adjusting Items in the Financial and Operational Schedules & Non-GAAP Reconciliations. Current quarter amounts for expected return on assets, interest cost, and amortization of prior service credit will be available in the Form 10-Q when filed.
