Reconciliation of GAAP to Non-GAAP Measures – Notes

Note: See Definitions.

(a) This adjustment removes Transaction-Related Charges, which are excluded from Blackstone's segment presentation. Transaction-Related Charges arise from corporate actions including acquisitions, divestitures, and Blackstone's initial public offering. They consist primarily of equity-based compensation charges, gains and losses on contingent consideration arrangements, changes in the balance of the Tax Receivable Agreement resulting from a change in tax law or similar event, transaction costs and any gains or losses associated with these corporate actions.

(b) This adjustment removes the amortization of transaction-related intangibles, which are excluded from Blackstone's segment presentation. This amount includes amortization of intangibles associated with Blackstone's investment in Pátria, which was historically accounted for under the equity method. As a result of Pátria IPO in January 2021, equity method has been discontinued and there will no longer be amortization of intangibles associated with the investment.

(c) This adjustment reverses the effect of consolidating Blackstone Funds, which are excluded from Blackstone's segment presentation. This adjustment includes the elimination of Blackstone's interest in these funds and the removal of amounts associated with the ownership of Blackstone consolidated operating partnerships held by non-controlling interests.

(d) This adjustment removes Unrealized Performance Revenues on a segment basis.

(e) This adjustment removes Unrealized Performance Allocations Compensation.

(f) This adjustment removes Unrealized Principal Investment Income (Loss) on a segment basis.

(g) This adjustment removes Other Revenues on a segment basis.

(h) This adjustment removes Equity-Based Compensation on a segment basis.

(i) This adjustment adds an amount equal to an administrative fee collected on a quarterly basis from certain holders of Blackstone Holdings Partnership Units. The administrative fee is accounted for as a capital contribution under GAAP, but is reflected as a reduction of Other Operating Expenses in Blackstone's segment presentation.

(j) Taxes represent the total GAAP tax provision adjusted to include only the current tax provision (benefit) calculated on Income (Loss) Before Provision (Benefit) for Taxes and adjusted to exclude the tax impact of any divestitures. Related Payables represent tax-related payables including the amount payable under the Tax Receivable Agreement. Please refer to Definitions for the full definition of Taxes and Related Payables.

(k) This adjustment removes Interest and Dividend Revenue less Interest Expense on a segment basis.

(l) This adjustment removes the total segment amount of Realized Performance Revenues.

(m) This adjustment removes the total segment amount of Realized Performance Compensation.

(n) This adjustment removes the total segment amount of Realized Principal Investment Income.

(o) This adjustment adds back Interest Expense on a segment basis, excluding interest expense related to the Tax Receivable Agreement.

(p) This adjustment adds back Depreciation and Amortization on a segment basis.

Inflows include contributions, capital raised, other increases in available capital (recallable capital and increased side-by-side commitments), purchases, inter-segment allocations and acquisitions. Outflows represent redemptions, client withdrawals and decreases in available capital (expired capital, expense drawdowns and decreased side-by-side commitments). Realizations represent realization proceeds from the disposition or other monetization of assets, current income or capital returned to investors from CLOs. Market Activity includes realized and unrealized gains (losses) on portfolio investments and the impact of foreign exchange rate fluctuations. AUM is reported in the segment where the assets are managed. Totals may not add due to rounding.

In 4Q'20, the methodology for Total AUM was updated with respect to the relevant segment for certain real estate, secondaries and credit funds to include permanent fund level leverage (as this represents additional capital the fund is managing), to include uncalled capital commitments until they are legally expired and to exclude certain uncalled capital commitments where the investors have complete discretion over investment. In 2Q'21, the methodology for Total AUM was further updated to exclude permanent fund level leverage where the intended use is not for investing purposes.These methodology changes resulted in a one-time adjustment to the LTM market activity of $2.0 billion, $1.9 billion, and $(1.5) billion for Real Estate, Private Equity, and Credit & Insurance, respectively. Funds without an adjustment were either already applying that methodology in reporting Total AUM or the updates were not applicable. Subsequent to 4Q'20, increases/decreases in permanent fund level leverage included in Total AUM and uncalled capital commitments that have not legally expired where investors do not have complete discretion over investment for the aforementioned funds will be reflected as inflows, outflows, realizations, and/or market activity, as the case may be.

(a) Excludes investment vehicles where Blackstone does not earn fees.

(b) Available Capital represents total investable capital commitments, including side-by-side, adjusted for certain expenses and expired or recallable capital and may include leverage, less invested capital. This amount is not reduced by outstanding commitments to investments.

(c) Multiple of Invested Capital ("MOIC") represents carrying value, before management fees, expenses and Performance Revenues, divided by invested capital.

(d) Unless otherwise indicated, Net Internal Rate of Return ("IRR") represents the annualized inception to September 30, 2021 IRR on total invested capital based on realized proceeds and unrealized value, as applicable, after management fees, expenses and Performance Revenues. IRRs are calculated using actual timing of limited partner cash flows. Initial inception date of cash flows may differ from the Investment Period Beginning Date.

(e) The 8% Realized Net IRR and 8% Total Net IRR exclude investors that opted out of the Hilton investment opportunity. Overall BREP International II performance reflects a 7% Realized Net IRR and a 7% Total Net IRR.

(f) BREP Co-Investment represents co-investment capital raised for various BREP investments. The Net IRR reflected is calculated by aggregating each co-investment's realized proceeds and unrealized value, as applicable, after management fees, expenses and Performance Revenues.

(g) BPP represents the Core+ real estate funds which invest with a more modest risk profile and lower leverage. Committed Capital and Available Capital are not regularly reported to investors in our Core+ strategy and are not applicable in the context of these funds.

(h) Unrealized Investment Value reflects BREIT's net asset value as of September 30, 2021. Realized Investment Value represents BREIT's cash distributions, net of servicing fees. The BREIT net return reflects a per share blended return, assuming BREIT had a single share class, reinvestment of all dividends received during the period, and no upfront selling commission, net of all fees and expenses incurred by BREIT. These returns are not representative of the returns experienced by any particular investor or share class. Inception to date net returns are presented on an annualized basis and are from January 1, 2017. Committed Capital and Available Capital are not regularly reported to investors in our Core+ strategy and are not applicable in the context of this vehicle.

(i) BREDS High-Yield represents the flagship real estate debt drawdown funds only.

(j) Blackstone Core Equity Partners is a core private equity strategy which invests with a more modest risk profile and longer hold period than traditional private equity.

(k) Realizations are treated as return of capital until fully recovered and therefore unrealized and realized MOICs are not applicable. Returns are calculated from results that are reported on a three-month lag from the fund financial statements and therefore do not include the impact of economic and market activities in the current quarter.

(l) Funds presented represent the flagship credit drawdown funds only. The Total Credit Net IRR is the combined IRR of the credit drawdown funds presented.

(m) Unrealized Investment Value reflects Blackstone Secured Lending Fund's ("BXSL") net asset value as of September 30, 2021. Realized Investment Value represents BXSL's cash distributions. BXSL's net return is annualized and calculated since inception starting on November 20, 2018, as the change in NAV per share during the period, plus distributions per share (assuming dividends and distributions are reinvested in accordance with the Company's dividend reinvestment plan) divided by the beginning NAV per share. Does not currently include Blackstone Private Credit Fund ("BCRED"), a continuously offered non-traded BDC.

Definitions

Blackstone discloses the following operating metrics and financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America (“non-GAAP”) in this presentation:

- **Segment Distributable Earnings**, or "**Segment DE**", is Blackstone’s segment profitability measure used to make operating decisions and assess performance across Blackstone’s four segments. Segment DE represents the net realized earnings of Blackstone’s segments and is the sum of Fee Related Earnings and Net Realizations for each segment. Blackstone’s segments are presented on a basis that deconsolidates Blackstone Funds, eliminates non-controlling ownership interests in Blackstone’s consolidated operating partnerships, removes the amortization of intangible assets and removes Transaction-Related Charges. Segment DE excludes unrealized activity and is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of Income (Loss) Before Provision (Benefit) for Taxes.
  - **Net Realizations** is presented on a segment basis and is the sum of Realized Principal Investment Income and Realized Performance Revenues (which refers to Realized Performance Revenues excluding Fee Related Performance Revenues), less Realized Performance Compensation (which refers to Realized Performance Compensation excluding Fee Related Performance Compensation and Equity-Based Performance Compensation).
  - **Total Segment Revenues** and **Segment Revenues** represent Net Management and Advisory Fees, Fee Related Performance Revenues, Realized Performance Revenues and Realized Principal Investment Income.
- **Distributable Earnings**, or “**DE**”, is derived from Blackstone’s segment reported results. DE is used to assess performance and amounts available for dividends to Blackstone shareholders, including Blackstone personnel and others who are limited partners of the Blackstone Holdings Partnerships. DE is the sum of Segment DE plus Net Interest and Dividend Income (Loss) less Taxes and Related Payables. DE excludes unrealized activity and is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of Income (Loss) Before Provision (Benefit) for Taxes.
  - **Net Interest and Dividend Income (Loss)** is presented on a segment basis and is equal to Interest and Dividend Revenue less Interest Expense, adjusted for the impact of consolidation of Blackstone Funds, and interest expense associated with the Tax Receivable Agreement.
  - **Taxes and Related Payables** represent the total GAAP tax provision adjusted to include only the current tax provision (benefit) calculated on Income (Loss) Before Provision (Benefit) for Taxes and including the Payable under the Tax Receivable Agreement. Further, the current tax provision utilized when calculating Taxes and Related Payables and DE reflects the benefit of deductions available to the company on certain expense items that are excluded from the underlying calculation of Segment DE and Total Segment Distributable Earnings, such as equity-based compensation charges and certain Transaction-Related Charges where there is a current tax provision or benefit. The economic assumptions and methodologies that impact the implied income tax provision are the same as those methodologies and assumptions used in calculating the current income tax provision for Blackstone’s consolidated statements of operations under U.S. GAAP, excluding the impact of divestitures and accrued tax contingencies and refunds which are reflected when paid or received. Management believes that including the amount payable under the tax receivable agreement and utilizing the current income tax provision adjusted as described above when calculating DE is meaningful as it increases comparability between periods and more accurately reflects earnings that are available for distribution to shareholders.
- **Fee Related Earnings**, or “**FRE**”, is a performance measure used to assess Blackstone’s ability to generate profits from revenues that are measured and received on a recurring basis and not subject to future realization events. FRE equals management and advisory fees (net of management fee reductions and offsets) plus Fee Related Performance Revenues, less (a) Fee Related Compensation on a segment basis, and (b) Other Operating Expenses. FRE is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of Income (Loss) Before Provision (Benefit) for Taxes.
  - **Fee Related Compensation** is presented on a segment basis and refers to the compensation expense, excluding Equity-Based Compensation, directly related to (a) Management and Advisory Fees, Net and (b) Fee Related Performance Revenues, referred to as Fee Related Performance Compensation.
  - **Fee Related Performance Revenues** refers to the realized portion of Performance Revenues from Perpetual Capital that are (a) measured and received on a recurring basis, and (b) not dependent on realization events from the underlying investments.
  - **Other Operating Expenses** is presented on a segment basis and is equal to General, Administrative and Other Expenses, adjusted to (a) remove the amortization of transaction-related intangibles, (b) remove certain expenses reimbursed by the Blackstone Funds which are netted against Management and Advisory Fees Net in Blackstone's segment presentation, and (c) give effect to an administrative fee collected on a quarterly basis from certain holders of Blackstone Holdings Partnership Units. The administrative fee is accounted for as a capital contribution under GAAP, but is reflected as a reduction of Other Operating Expenses in Blackstone's segment presentation.
  - **Perpetual Capital** refers to the component of assets under management with an indefinite term, that is not in liquidation, and for which there is no requirement to return capital to investors through redemption requests in the ordinary course of business, except where funded by new capital inflows. Includes co-investment capital with an investor right to convert into Perpetual Capital.
- **Adjusted Earnings Before Interest, Taxes and Depreciation and Amortization**, or “**Adjusted EBITDA**”, is a supplemental measure used to assess performance derived from Blackstone’s segment results and may be used to assess its ability to service its borrowings. Adjusted EBITDA represents Distributable Earnings plus the addition of (a) Interest Expense on a segment basis, (b) Taxes and Related Payables, and (c) Depreciation and Amortization. Adjusted EBITDA is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of Income (Loss) Before Provision (Benefit) for Taxes.
- **Performance Revenues** collectively refers to: (a) Incentive Fees, and (b) Performance Allocations.
- **Performance Compensation** collectively refers to: (a) Incentive Fee Compensation, and (b) Performance Allocations Compensation.
  - Performance Compensation reflects an increase in the aggregate Realized Performance Compensation paid to certain of our professionals above the amounts allocable to them based upon the percentage participation in the relevant performance plans previously awarded to them as a result of a new compensation program that commenced in 2Q'21. Fee Related Compensation was decreased by a corresponding amount. These changes to Performance Compensation and Fee Related Compensation had no impact to Distributable Earnings.
- **Transaction-Related Charges** arise from corporate actions including acquisitions, divestitures, and Blackstone’s initial public offering. They consist primarily of equity-based compensation charges, gains and losses on contingent consideration arrangements, changes in the balance of the Tax Receivable Agreement resulting from a change in tax law or similar event, transaction costs and any gains or losses associated with these corporate actions.
