InteractiveBrokers

Investor Presentation

Second Quarter 2026

Interactive Brokers LLC
Member NYSE - FINRA - SIPC

Disclaimer

Non-GAAP Financial Measures

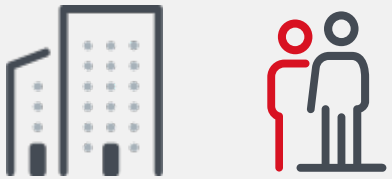

We use certain non-GAAP financial measures as additional measures to enhance the understanding of our financial results. This presentation includes the following non-GAAP financial measures: adjusted net revenues, adjusted variable expenses, adjusted fixed expenses, adjusted income before income taxes and adjusted diluted earnings per share ("EPS"). We believe that these non-GAAP financial measures are important measures of our financial performance because they exclude certain items that may not be indicative of our core operating results and business outlook. We believe these non-GAAP financial measures are useful to investors and analysts in evaluating the operating performance of the business. These non-GAAP financial measures should be considered in addition to, rather than as a substitute for, measures of financial performance prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). A reconciliation of these non-GAAP measures to the most comparable financial measure presented in accordance with GAAP is included at the end of this presentation.

Cautionary Note Regarding Forward-Looking Statements

The following information contains certain forward-looking statements that reflect the Company's current views with respect to certain current and future events and financial performance. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company's operations and business environment which may cause the Company's actual results to be materially different from any future results, expressed or implied, in these forward-looking statements. Any forward-looking statements are based upon information available to the Company on the date of this presentation. The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any statements expressed or implied therein will not be realized. Additional information on risk factors that could potentially affect the Company's financial results may be found in the Company's filings with the Securities and Exchange Commission.

We Are a Highly Automated Electronic Broker[1]

We use our proprietary technology and international trading experience to offer **low cost, seamless global access** to an extensive range of financial products for both **institutional**[2] and **individual investors**.

PRETAX MARGIN
77%

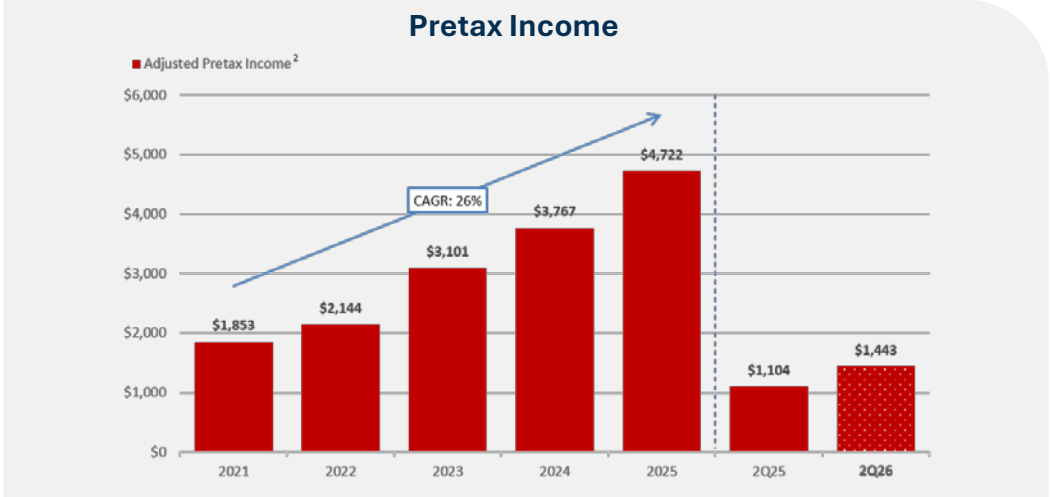

EQUITY CAPITAL
$22.3 billion ▲20%

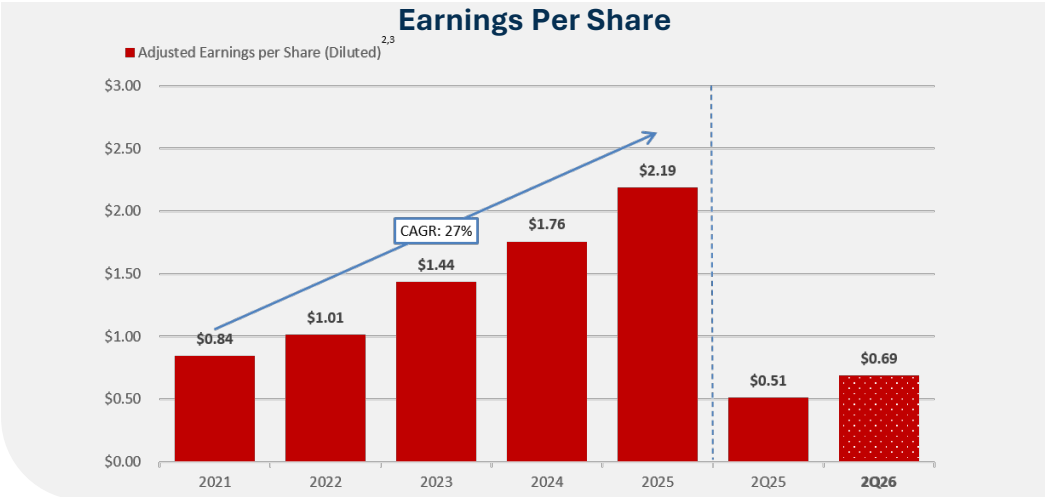

InteractiveBrokers

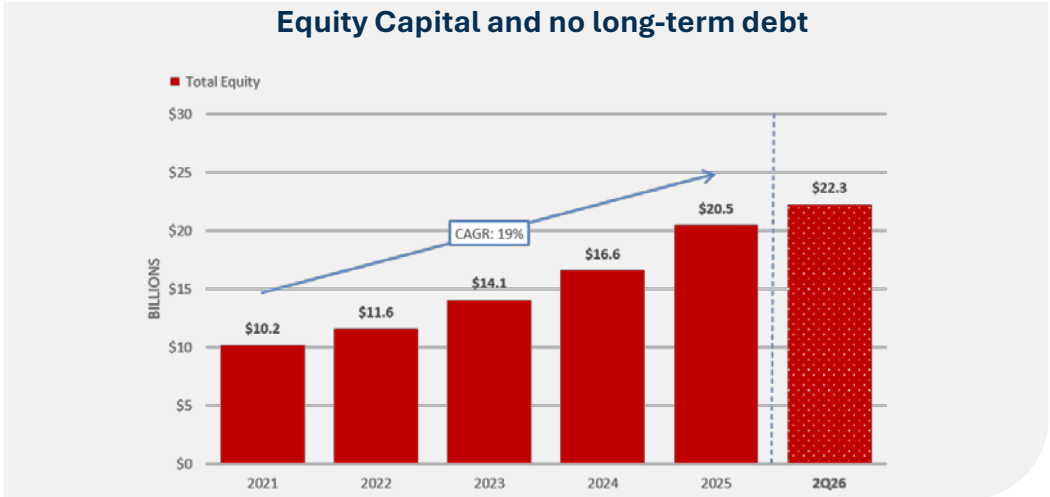

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries
2. Includes hedge funds, proprietary trading groups, financial advisors and introducing brokers
3. Available currencies vary by Interactive Brokers affiliate

Strong Growth Track Record Across All Metrics[1]

InteractiveBrokers

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries
2. See reconciliation of non-GAAP measures at the end of this presentation
3. Prior periods retroactively adjusted to reflect the four-for-one forward stock split, effected in the form of a stock dividend, on June 17, 2025

Automation: The IBKR Advantage

Premier Technology

- Award-winning platforms (desktop, mobile and web-based) that match a client's trading style and expertise—from APIs and powerful trading features for professional traders to streamlined solutions for beginners
- Technology designed and built in-house by leading software developers
- Direct market access delivers superior trade execution and efficient clearing services
- AI-powered tools, including AI Integration, AI Screeners, and Ask IBKR, enable clients to research, analyze, and trade more efficiently

Strong Financials

- $22.3 billion in equity capital[4]
- Conservative balance sheet, with significantly low duration risk, no external debt, and no off-balance sheet exposures
- Carefully selected and diverse counterparties
- Automated risk controls
- Superior risk monitoring with assets marked-to-market daily

Allow Us to Offer

Wide Breadth of Global Products

- Clients can access more than 170 market centers in 40 countries
- Single Unified Platform to fund and trade in up to 29 currencies[1], giving clients the ability to operate seamlessly in multiple jurisdictions
- Clients can invest in stocks, options[2], futures, currencies, commodities, bonds, mutual funds, ETFs, prediction markets, and crypto[3]

Professional Pricing

- U.S. margin rates range from 4.13% to 5.13% for IBKR Pro[5]
- Interest is paid on instantly available cash at rates up to 3.13% for IBKR Pro[6]
- No added spreads, ticket charges, platform fees, or account minimums
- Stock Yield Enhancement program and pricing transparency in our Securities Lending system
- Clients have low drag from overall investing costs, helping them show better performance by maximizing their investment returns

InteractiveBrokers

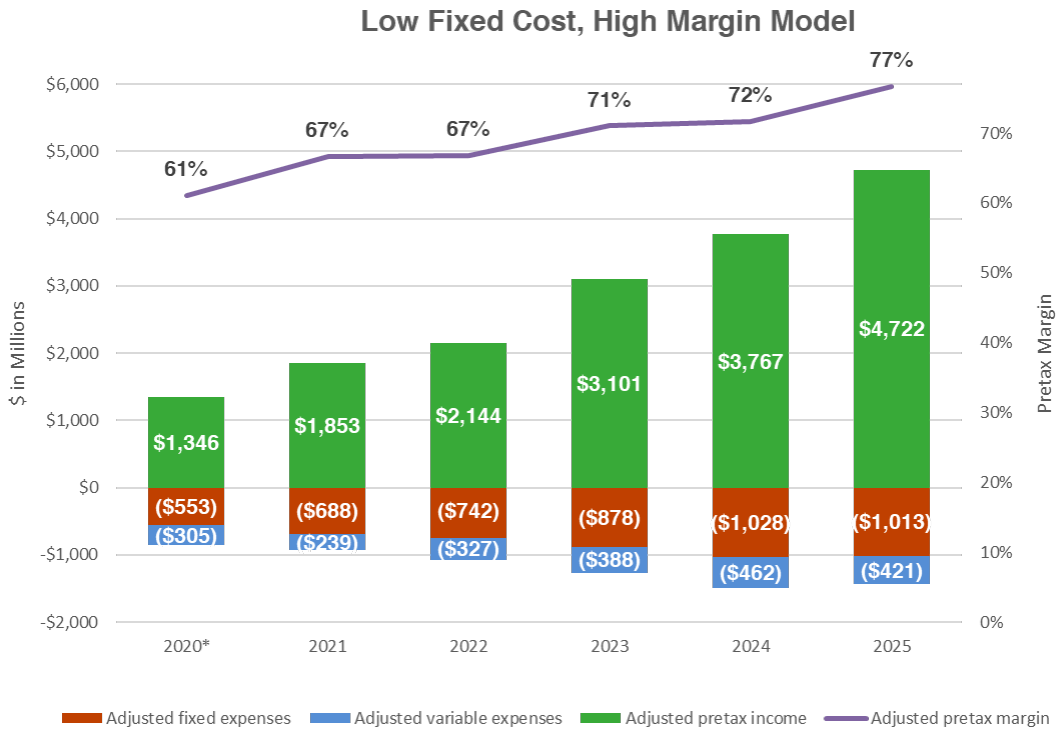

1. Available currencies vary by Interactive Brokers affiliate
2. Options involve risk and are not suitable for all investors. For more information read the "Characteristics and Risks of Standardized Options", also known as the options disclosure document (ODD) by visiting ibkr.com/occ
3. Cryptocurrency trading is available to clients of IB LLC through Paxos and Zero Hash. Cryptocurrency trading is available to clients of Interactive Brokers (UK) Limited through Paxos. Cryptocurrency trading through Interactive Brokers Hong Kong is powered by OSL Digital Securities
4. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries
5. As of 08/07/2026. See ibkr.com/marginrates. U.S. margin interest priced at 50 to 150 basis points over benchmark Federal Funds rate
6. Credit Interest rate as of 08/07/2026. Restrictions apply. For additional information, see ibkr.com/interestpaid

Best-in-Class Margins

Effective and Efficient Platform

Commitment to Automation

- From account opening through the entire transaction lifecycle, **our automated processes** include order routing, real-time risk management, securities lending and regulatory reporting
- **Majority of senior management are software engineers** who seek to automate as many brokerage processes as possible
- Operational efficiency enables a **broad product offering at a low cost**

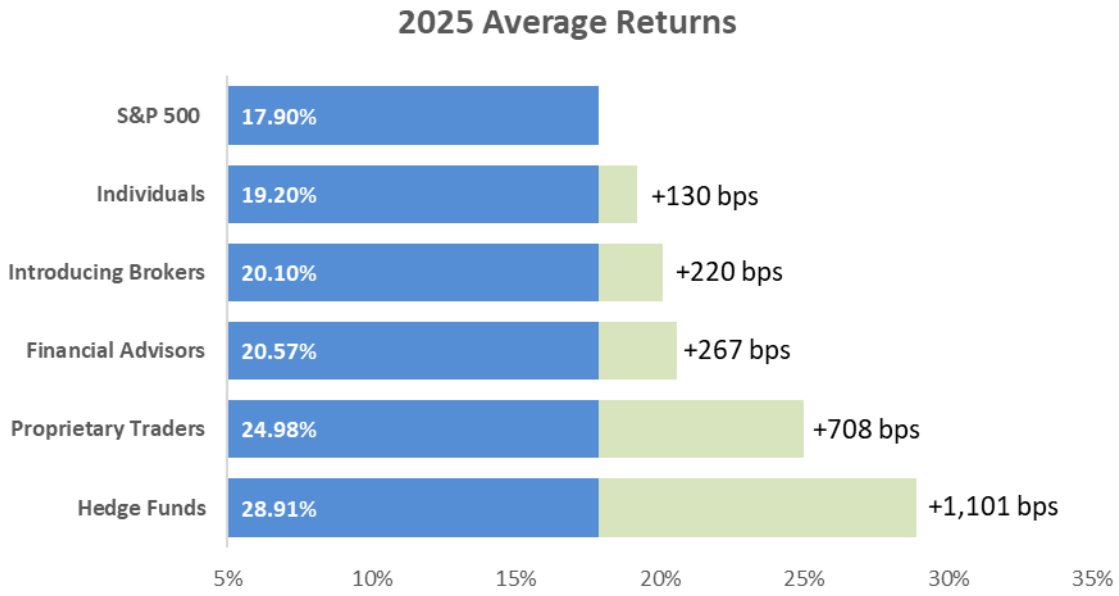

- See reconciliation of non-GAAP measures at the end of this presentation
- 2020 includes $19 million in fixed expenses due to Brexit costs
- "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries

IBKR Clients Outperform the S&P 500

Advantages that compound

- **Lower trading and financing costs** improve capital efficiency over time
- **Global market access** enables clients to allocate capital across 170+ markets and diverse asset classes
- **Superior execution quality** helps maximize price improvement while minimizing market impact

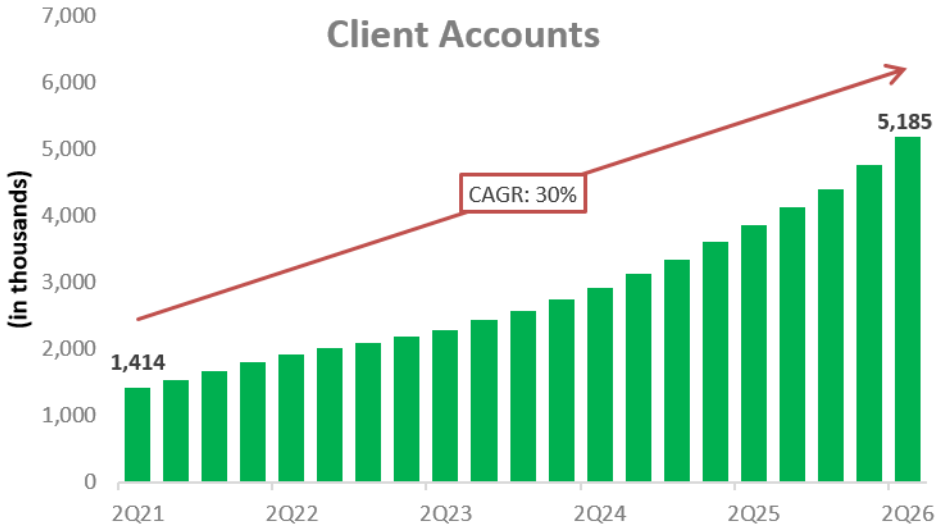

All returns shown are net of commissions and charges

InteractiveBrokers

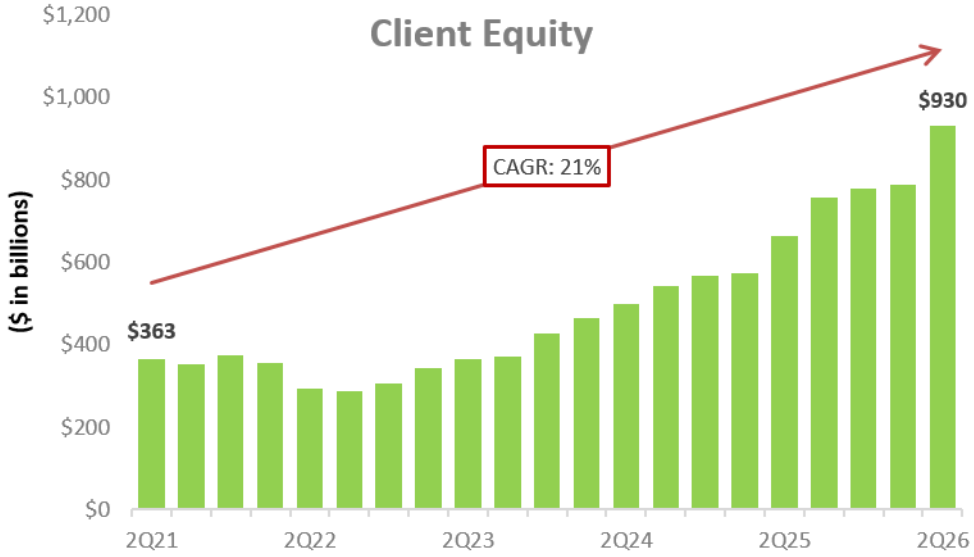

1. Past performance is not indicative of future results. IBKR returns shown include all account segments and product types and are net of commissions and charges. Returns shown are based on aggregate data accounts meeting minimum thresholds as of January 1, 2025. (Over $50,000 for Individual Accounts). Such Individual Accounts accounted for 21.9% of total Individual Accounts. Results may vary significantly among clients, and comparisons to the S&P 500 are provided for informational purposes only. Investing involves risk, including potential loss of principal

IBKR Growth Continues[1]

Account growth has been consistently strong as clients take advantage of our offering.

More accounts on our platform have led to more client assets held at IBKR.

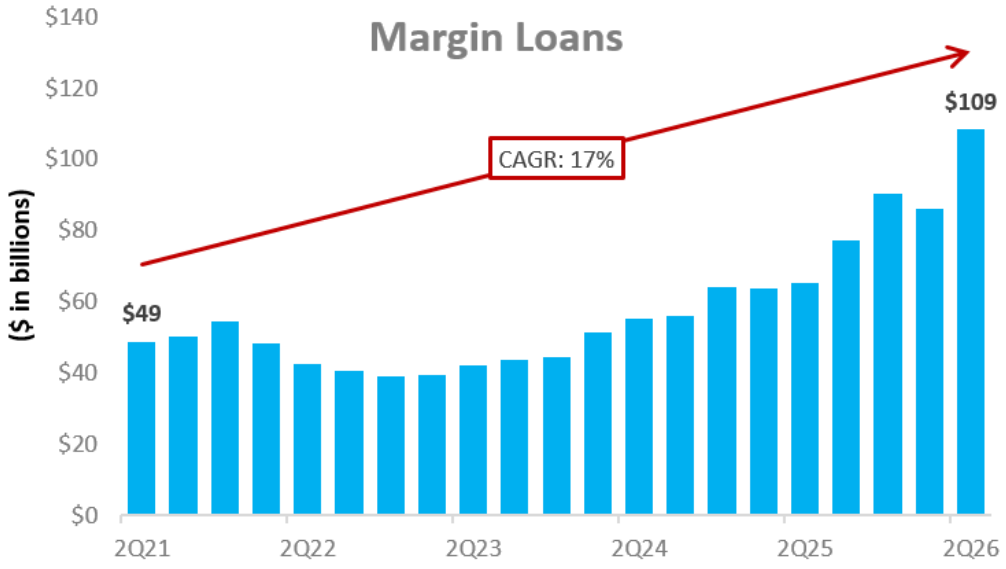

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries

IBKR Growth Continues[1]

As accounts have grown, so have cash and margin loan balances.

InteractiveBrokers

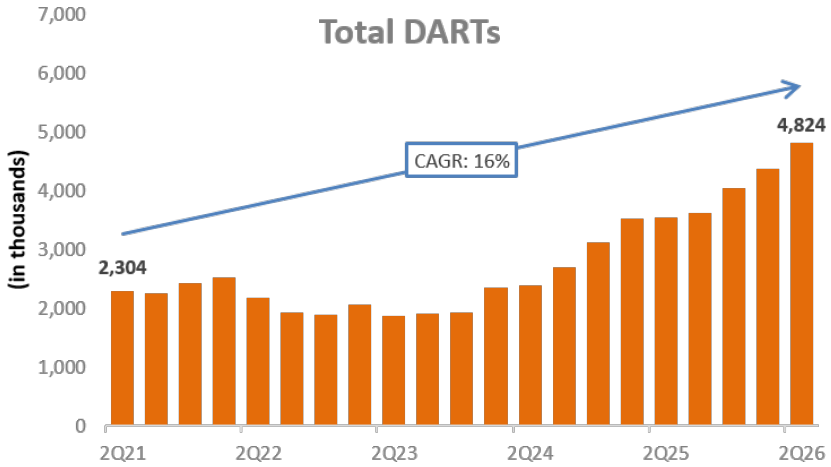

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries

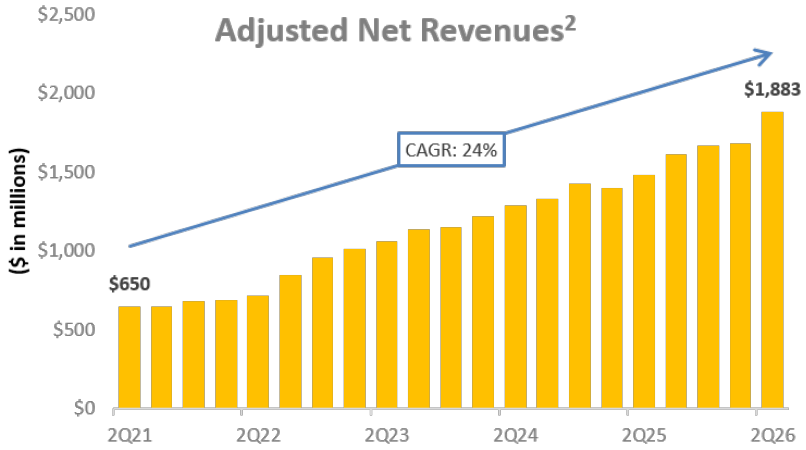

IBKR Growth Continues[1]

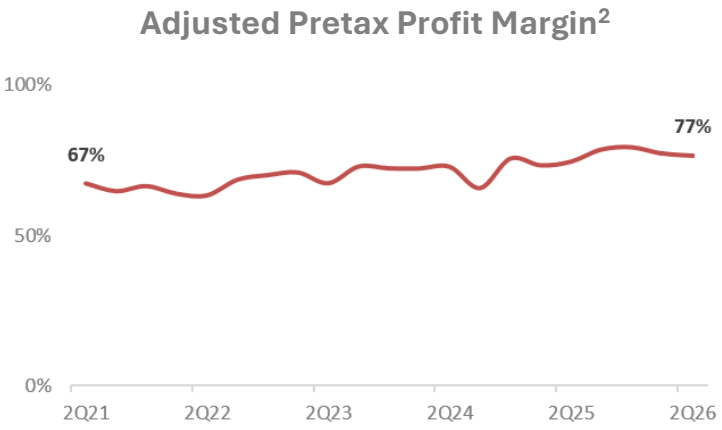

More accounts and client equity on our highly automated platform mean higher activity and client engagement.

Higher overall activity translates to higher revenues.

These help drive our consistently strong profit margins.

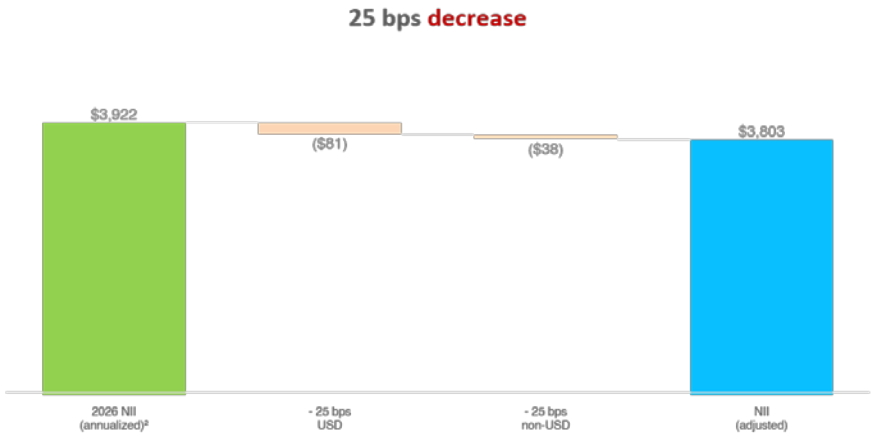

InteractiveBrokers

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries
2. See reconciliation of non-GAAP measures at the end of this presentation

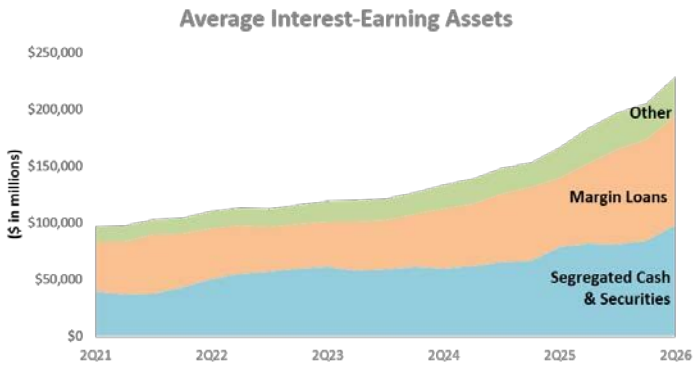

Net Interest Margin[1]

Interest Rate Sensitivity Impact

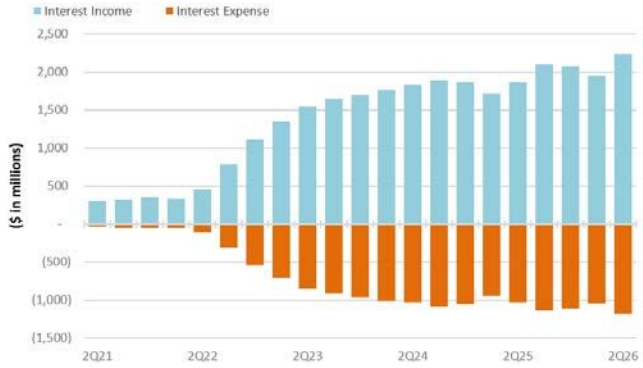

Interest rate moves have a moderate impact on our net interest income. This impact can be offset by...

...balance sheet growth, as net interest-earning assets rise due to healthy account growth, and...

...by lower interest expense, as the rate paid to our clients declines (we pay interest based on benchmark rates).

- Based on balances and rates at 06/30/2026, a 25 bps decrease in all benchmark rates would decrease our annual net interest income by $119 million
- This assumes no balance sheet growth

1. "Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries
2. 6M 2026 Net Interest Income of $1,961 million when annualized is $3,922 million

Net Interest Margin[1]

Consistent Securities Lending Revenue

A Securities Lending Transaction has 3 parts:

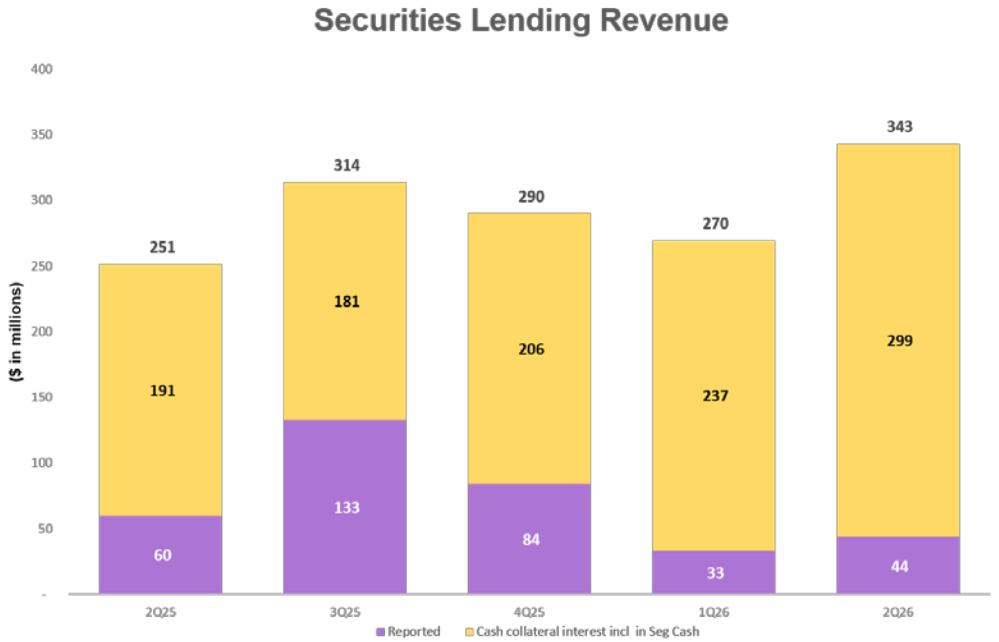

- Fee we earn to lend the security
- Interest we pay on the *cash collateral received* for the security
- Interest we earn on reinvesting the *cash collateral received*

\+ (Fee we earn to lend the security) − (Interest we pay on the *cash collateral received* for the security)

Reported in ‘Securities borrowed and loaned, net’

Reported in ‘Segregated cash & securities, net’

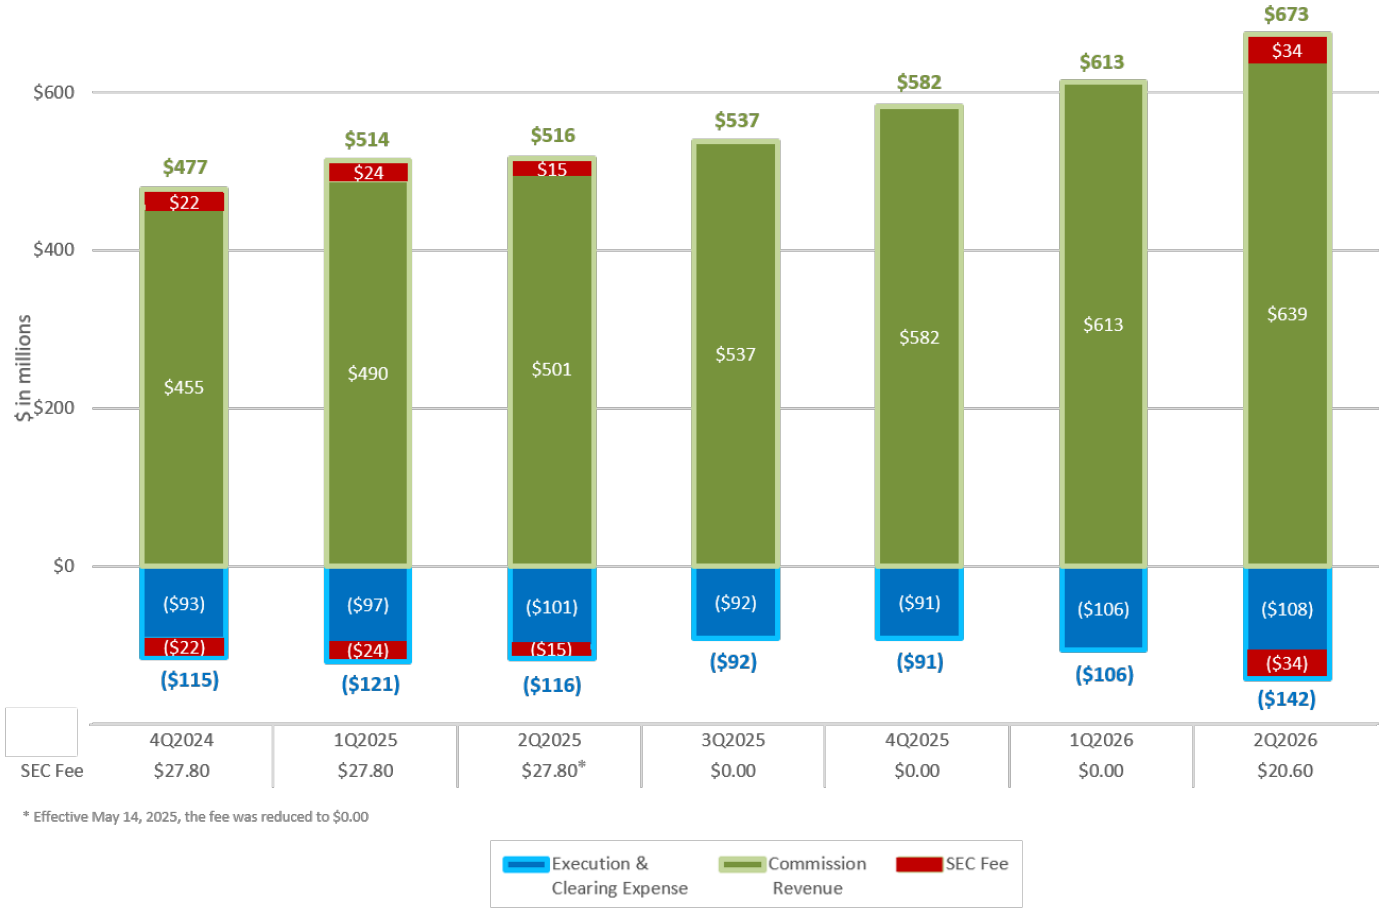

- Higher interest rates mean interest earned on reinvesting the cash collateral received (reported in “Interest Earned on Segregated Cash”) rises.
- What is reported as “Securities Lending, Net” appears to decline, but overall, total revenue related to securities lending remains steady over time.

1.“Interactive Brokers Group” and “IBKR” include the Group’s operating subsidiaries

Commission Revenue[1]

- Commissions have **grown consistently** from our growing base of active customers
- Execution and Clearing Expense **remained relatively stable** as a percentage of Commissions
- SEC regulatory fee rate changes annually and is a pass-through

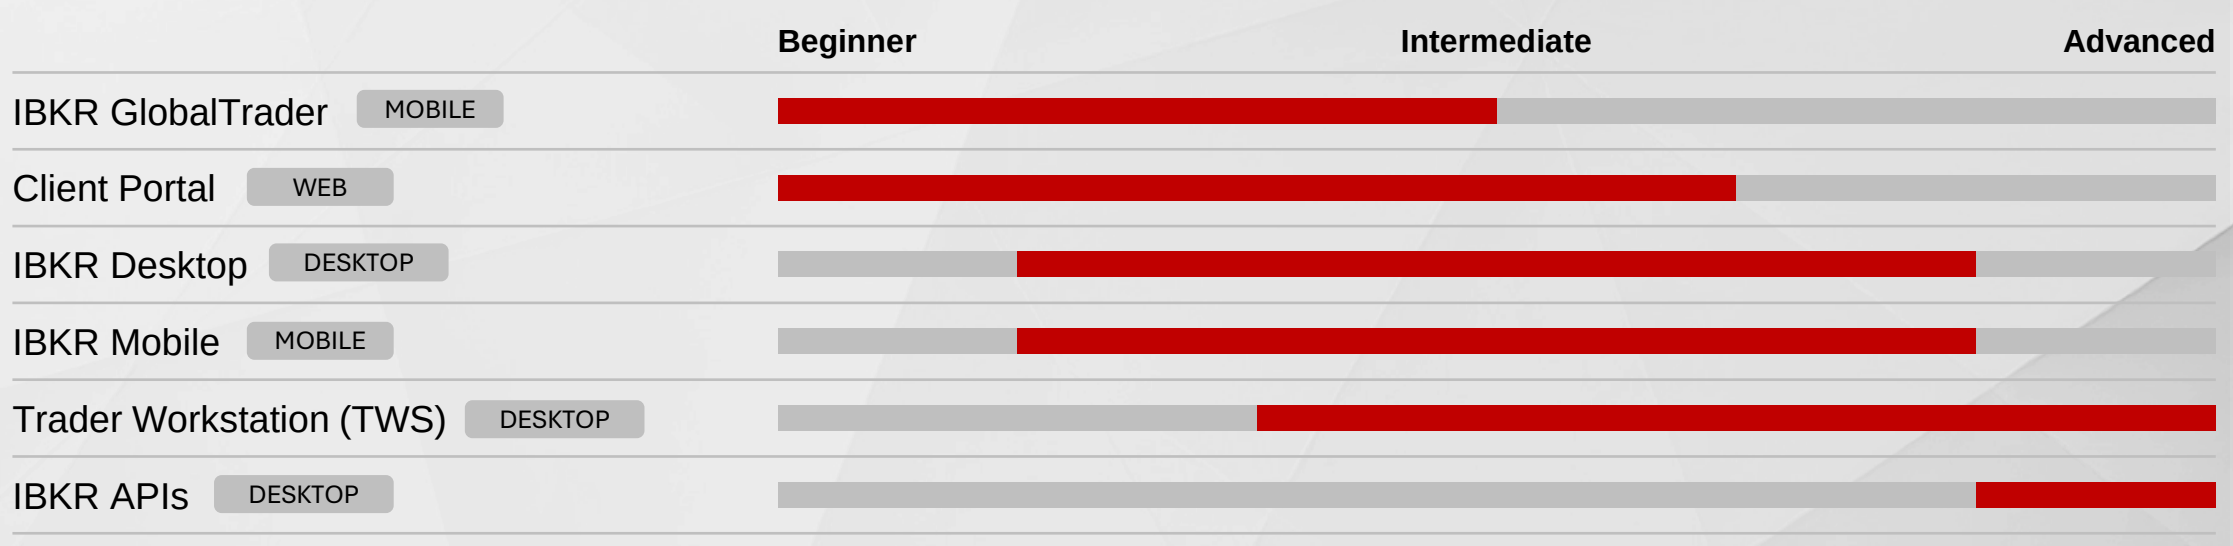

1."Interactive Brokers Group" and "IBKR" include the Group's operating subsidiaries

Trading Platforms

Platforms for a wide variety of client trading needs and experience levels

- ✓ We continuously improve our platforms to deliver the best trading experience– from design to the underlying technology
- ✓ Clients can access any platform with a single login
- ✓ No platform fees
- ✓ Core trading tools work consistently across all platforms

IBKR GlobalTrader[1]

Designed for Simpler Mobile Investing

Trading Platform:	Trading Skill:
Web	**Beginner**
Mobile	**Intermediate**
Desktop	Advanced

A **streamlined mobile app** with an easy-to-use interface for global investing.

Key Features:

- **Global market access**: Trade stocks, ETFs, and mutual funds across 90+ markets worldwide, plus forecast contracts, options[2], and cryptocurrencies[3]
- **Overnight trading**
- **Simplified experience**: An intuitive interface for easy investing
- **Fractional trading**: Clients can start investing with as little as $1, regardless of the price of the stock

New Features:

- Access prediction markets
- Streamlined layout
- Expanded trade history
- Multiple watchlists

InteractiveBrokers

1. See ibkr.com/globaltrader for further details
2. Options involve risk and are not suitable for all investors. For more information read the “Characteristics and Risks of Standardized Options”, also known as the options disclosure document (ODD) by visiting ibkr.com/occ
3. Cryptocurrency trading is available to clients of IB LLC through Paxos and Zero Hash. Cryptocurrency trading available to clients of Interactive Brokers (UK) Limited through Paxos. Cryptocurrency trading through Interactive Brokers Hong Kong is powered by OSL Digital Securities
4. Any trading symbols displayed are for illustrative purposes only and are not intended to portray recommendations

IBKR Desktop

Next Generation Trading Platform

Trading Platform:	Trading Skill:
Web	**Beginner**
Mobile	**Intermediate**
Desktop	**Advanced**

Our **newest trading platform** built from the ground up, has a modern user interface framework and simplified navigation. It serves as a lightweight alternative to the flagship Trader Workstation (TWS).

Key Features:

- **Modern intuitive** interface
- **Comprehensive market access**: Trade stocks, options, futures, currencies, and bonds across 170+ global markets from one platform
- **Advanced trading tools**: Clients can evaluate investment opportunities with advanced screeners, strategy builders, and customizable watchlists
- **Customizable workspace**

New Features:

- QuickTrade buttons for one-click order entry
- Market Heatmap to quickly identify market trends and sector performance
- AI-powered screening capabilities
- Multi-monitor support to organize workflow and multitask with ease
- Expanded options tools, including Options Wizard and Options Screeners

InteractiveBrokers

1. For more details see ibkr.com/future-of-trading
2. Any trading symbols displayed are for illustrative purposes only and are not intended to portray recommendations

IBKR Mobile

Desktop-level Trading Precision for On-the-Go Traders

Trading Platform:	Trading Skill:
Web	Beginner
Mobile	**Intermediate**
Desktop	**Advanced**

A **powerful mobile app** with advanced tools and features. Clients can trade from any mobile device.

Key Features:

- **Professional tools** with the same advanced trading capabilities as Trader Workstation
- **Clients can trade all asset classes**
- **Advanced order types and algorithms** are available
- **Seamless synchronization**: Watchlists, order presets, and settings automatically sync with desktop platforms

New Features:

- Enhanced market scanner interface, and advanced screening
- Prediction markets seamlessly integrated[1]
- Conditional and One-Cancels-All (OCA) orders for advanced trade management
- MultiSort screeners for powerful, customizable stock screening
- Redesigned alert interface for faster, clearer notifications

1. Futures and Prediction Market Contracts are not suitable for all investors. Before trading these products, please read the CFTC Risk Disclosure. For a copy, visit our Warnings and Disclosures page at ibkr.com/disclosures
2. Any trading symbols displayed are for illustrative purposes only and are not intended to portray recommendations

Trader Workstation (TWS)

Platform for Seasoned & Active Traders

Trading Platform:	Trading Skill:
Web	Beginner
Mobile	**Intermediate**
Desktop	**Advanced**

Our **flagship desktop trading platform**, built for active traders and investors who demand speed, flexibility and global market access.

Key Features:

- **Complete trading control**: Access to 100 order types and sophisticated algorithms for precise trade execution
- **Professional-grade analytics**: Utilize advanced charting, risk analysis tools, and real-time market scanners for deep research
- **Multi-asset trading**: Trade every product type including stocks, options[1], futures, forex, bonds, funds, and cryptocurrencies[2]
- **Highly customizable workspace**: Create unlimited layouts with customizable windows, charts, and tools tailored to any strategy

New Features:

- Added year-to-date realized P&L in Portfolio Summary, providing immediate visibility into tax implications of trading activity
- Introduced Close Specific Lots tool enabling users to multi-select any tax lot(s) they wish to close

InteractiveBrokers

1. Options involve risk and are not suitable for all investors. For more information read the "Characteristics and Risks of Standardized Options", also known as the options disclosure document (ODD) by visiting ibkr.com/occ
2. Cryptocurrency trading is available to clients of IB LLC through Paxos and Zero Hash. Cryptocurrency trading available to clients of Interactive Brokers (UK) Limited through Paxos. Cryptocurrency trading through Interactive Brokers Hong Kong is powered by OSL Digital Securities
3. Any trading symbols displayed are for illustrative purposes only and are not intended to portray recommendations

IBKR APIs[1]

Automated Trading and Custom Integrations

Trading Platform:	Trading Skill:
Web	Beginner
Mobile	Intermediate
Desktop	**Advanced**

A solution that allow developers and traders to **programmatically access** our trading platform, market data, account information, and more. Our APIs provide the foundation for automated trading systems, custom applications, and integration with third-party software.

Key Features:

- **Programmatic trading control:** Automate strategies by connecting custom applications directly to IBKR's trading infrastructure
- **Multiple API options:** Choose from Web API, TWS API, or FIX API to build solutions
- **Real-time and historical data:** Access comprehensive market data feeds for analysis, backtesting, and automated decision-making
- **Third-party integration:** Connect with any preferred trading software, analytics tools, or algorithmic systems to an IBKR account

New Features:

- Order attributes recently enhanced to provide more control over order execution
- Enhanced protocol buffers to improve efficiency and performance for high-volume operations
- Improved connection reliability

InteractiveBrokers

1. API stands for Application Programming Interface. For more details see ibkr.com/api
2. Any trading symbols displayed are for illustrative purposes only and are not intended to portray recommendations

Professional Pricing to Maximize Investor Returns

- **Clients Earn Interest at Competitive Rates**
  - Clients can earn up to 3.13%[1] on **instantly available** cash balances over $10,000
  - We offer added security available for uninvested cash through our Insured Bank Deposit Sweep Program, with up to $5 million of additional FDIC insurance for an individual account and $10 million for joint accounts[2]
- **Clients have Access to Low Margin Rates[3]**
  - Clients can borrow USD against their holdings at 4.13%-5.13% annual rate[6], with rates up to **55% lower** than the industry
  - Lower rates than credit cards, personal loans and home equity lines of credit[4]

BROKER	INTEREST RATES	MARGIN RATES[5,6]			
		$25K	$300K	$1.5M	$3.5M
Interactive Brokers	**3.13%[1]**	**5.13%**	**4.80%**	**4.58%**	**4.47%**
E-Trade	0.01%	11.95%	10.45%	N/A	N/A
Fidelity	1.84%	11.33%	10.08%	N/A	N/A
Schwab	0.01%	11.33%	10.08%	N/A	N/A
Vanguard	1.75%	11.50%	10.00%	N/A	N/A

Margin borrowing is **only for experienced investors** with high risk tolerance. You may lose more than your initial investment.

For additional information about margin trading including risks please see the Margin Risk Disclosure at ibkr.com/info

1. Credit Interest rate as of 08/07/2026. Rate shown applies to IBKR Pro clients only. Positive settled cash balances held in securities segment of accounts with a Net Asset Value (NAV) of $100,000 (or equivalent) or greater earn the stated interest rate and those with NAV lower than $100,000 (or equivalent) receive interest payments at rates proportional to the account size, and no interest is paid on the first $10,000 of cash in the account. Cash held in the commodities segment of an account does not earn interest. For more information, see ibkr.com/interestpaid
2. The Insured Bank Deposit Sweep Program allows eligible IBKR clients to obtain up to $5,000,000 of FDIC insurance for an individual account and $10,000,000 of FDIC insurance for a joint account, in addition to existing $250,000 SIPC coverage, for total coverage of $5,250,000 for individual accounts and $10,250,000 for joint accounts
3. According to StockBrokers.com Interactive Brokers Review: Online Broker Reviews, January 28, 2026. "The industry's cost leader: Interactive Brokers continues to set the benchmark for cost efficiency, offering margin rates and high yields on idle cash that consistently outperform the competition."
4. Credit cards, personal loans and home equity lines of credit based on US data
5. Restrictions apply. Margin loan rates as of 08/07/2026. Each firm's information reflects the standard online margin loan rates obtained from their respective websites. Competitor rates and offers subject to change without notice. Services vary by firm
6. Annual Percentage Rate (APR) on USD margin loan balances for IBKR Pro as of 08/07/2026. Interactive Brokers calculates the interest charged on margin loans using the applicable rates for each interest rate tier listed on its website. For additional information on margin loan rates, see ibkr.com/marginrates

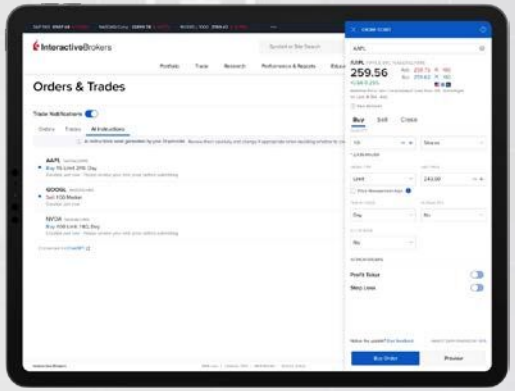

InteractiveBrokers

IBKR AI-Powered Tools[1]

- ✓ Faster research with AI-powered screening and analysis
- ✓ Complex market data synthesized into clear and actionable insights
- ✓ All AI tools are included at no additional cost

AI Integration[2]

- Securely connect ChatGPT, Claude, or Grok directly to an IBKR account via MCP (Model Context Protocol)
- Clients can ask their preferred AI to research a stock, build a thesis, or construct a hypothetical portfolio
- AI drafts the trade — the client reviews, confirms, and places every order; full control stays with the client

1. For more details see ibkr.com/ai-tools
2. AI Integration is not available in IN or JP.
Interactive Brokers does not guarantee the accuracy or completeness of the data and information provided through the AI service that you choose independently. Information provided using AI integration is not investment advice or a recommendation from Interactive Brokers. Interactive Brokers is not responsible for any investment decision you take in reliance on information generated through the AI integration. You should independently verify information before more making any trading or investment decisions. The Instructions are created based on information provided by your AI service and may not be accurate or reflect what you wish to do. You are responsible for carefully reviewing the Instructions, editing them as appropriate, and deciding if you wish to convert your Instruction to an order on the IBKR platform. IBKR AI-Powered Tools

AI Screeners

- Describe investment criteria in plain language and get a ranked list of opportunities across 70,000+ global stocks
- Refine results conversationally as criteria evolve

Investment Themes[1]

- Streamlines research by connecting companies, products, competitors and regions across 3,000+ companies
- Start with a topic like “Clean Energy” or “Cloud Computing”

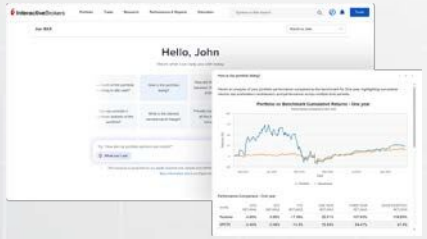

Connections[2]

- Analyze connected instruments and strategies in one view
- Explore related companies, thematic trends, prediction markets contracts, and sector-aligned ETFs, futures, options, and bonds

InteractiveBrokers

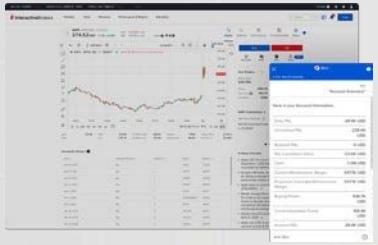

1. The information provided by Investment Themes is for informational purposes only and should not be construed as investment advice. Past performance is not indicative of future results. Investors should conduct their own research and consider their financial situation, risk tolerance, and investment objectives before making any investment decisions. Interactive Brokers does not guarantee the accuracy or completeness of the data provided through Investment Themes. Always consult with a qualified financial advisor before engaging in trading or investment activities
2. Connections offers a comprehensive view of the investment landscape surrounding stocks, enabling investors to explore related instruments and strategies; however, users should conduct their own research and consider market risks before making investment decisions

IBKR AI-Powered Tools

Ask IBKR[1]

- Clients can ask questions about their portfolio in natural language and receive structured, data-driven answers
- Clients can ask about portfolio metrics, allocation analysis, holdings, activity, and performance

IBot[2]

- Helps clients with a broad range of platform tasks using plain English commands
- Provides access to information, trading tools, features, and account data

AI News Summaries[3]

- Delivers concise summaries tailored to the markets, sectors, and securities in a client's portfolio, with important articles flagged automatically
- Summaries update in near real-time as stories evolve

InteractiveBrokers

1. The Ask IBKR tool provides data-driven insights for investment portfolios but does not guarantee success; users should be aware of market risks, data accuracy limitations, and the need for personal responsibility in investment decisions, and should consult a qualified financial advisor as needed. IBKR does not provide financial advice or recommendations
2. IBot is an automated, natural-language interface designed to assist with order entry, market research, and account management. Information and functionality provided through IBot do not constitute investment advice, personalized recommendations, or an offer or solicitation to buy or sell any financial investment. Decisions to trade are self directed.
3. Interactive Brokers' news content and AI-generated news summaries are provided by an affiliate, Global Financial Information Services. Providers are gradually being activated

Spot Currencies[1,2]

- Clients can trade **100+ currency pairs** on 28 currencies
- **Tight spreads as narrow as** 1/10 PIP, backed by deep liquidity and real-time quotes from 17 of the world's largest FX dealers
- **Low commissions** of 0.08 to 0.20 bps times the trade size, with no hidden spreads or markups
- Trade stocks on overseas exchanges and attach an FX order to the equity trade to **hedge the currency you want**

InteractiveBrokers

1. For more details see ibkr.com/forex
2. Available currencies vary by Interactive Brokers affiliate
3. There is a substantial risk of loss in foreign exchange trading. The settlement date of foreign exchange trades can vary due to time zone differences and bank holidays. When trading across foreign exchange markets, this may necessitate borrowing funds to settle foreign exchange trades. The interest rate on borrowed funds must be considered when computing the cost of trades across multiple markets.

Prediction Markets[1]

- Now **connected to three major U.S. prediction markets** — ForecastEx (our own prediction market), Kalshi, and CME Group — through a single, unified IBKR account. No need to open or fund separate accounts
- **Trade the probabilities** associated with the future outcomes of political[2], economic, finance and climate indicators

Indicators include:

- Political events
- Recession Odds
- Unemployment Claims
- Consumer Price Index
- Retail Sales
- Fed Funds Target Rate
- Global Central Bank Rates
- Housing Starts
- Stock Market Indices
- Cryptocurrency Prices
- Corporate Actions
- Climate events

- **Smart Order routing** compares liquidity and pricing across connected exchanges and routes to the destination offering the best net price
- Investors can **gain exposure while limiting risk**. The maximum loss on each contract is limited to the price paid for the contract
- **Easy to trade.** Investors simply choose YES or NO on a forecast contract
- **Low cost of entry.** Contracts start as low as $0.01, plus investors earn an interest-like incentive coupon of 3.13% APY[3]
- Available to eligible clients in the US, Canada, Hong Kong, Europe, and Singapore[4]

InteractiveBrokers

1. For more details see forecasttrader.ibkr.com. Interactive Brokers LLC is a CFTC-registered Futures Commission Merchant and a clearing member and affiliate of ForecastEx LLC ("ForecastEx"). ForecastEx is a CFTC-registered Designated Contract Market and Derivatives Clearing Organization. Interactive Brokers LLC provides access to ForecastEx forecast contracts for eligible customers. Interactive Brokers LLC does not make recommendations with respect to any products available on its platform, including those offered by ForecastEx.
   Futures and Prediction Market Contracts are not suitable for all investors. Before trading these products, please read the CFTC Risk Disclosure. For a copy, visit our Warnings and Disclosures page at ibkr.com/disclosures
2. Forecast Contracts on US election results are only available to eligible US residents
3. ForecastEx Contracts pay an interest-like incentive coupon based on the closing market value of the positions. The incentive coupon accrues daily and is paid monthly. Rates are subject to change
4. Forecast Contracts are only available to eligible clients of Interactive Brokers LLC, Interactive Brokers Canada Inc., Interactive Brokers Hong Kong Limited, Interactive Brokers Ireland Limited and Interactive Brokers Singapore Pte. Ltd.

- Supported by **dual market centers**, our systems are built for stability and responsiveness
- Clients can take full advantage of IBKR's proprietary, specialized order type to seamlessly submit overnight orders that remain active and continue working through the end of the following trading day.

1. For more details see ibkr.com/overnight-trading
2. Any discussion or mention of an ETF is not to be construed as recommendation, promotion or solicitation. All investors should review and consider associated investment risks, charges and expenses of the investment company or fund prior to investing. Before acting on this material, you should consider whether it is suitable for your particular circumstances and, as necessary, seek professional advice
3. Overnight Trading Stocks/ETFs as of September 26, 2025. Source: us.etrade.com, robinhood.com, schwab.com. Competitor overnight trading offerings are subject to change without notice. Services vary by firm.

Cryptocurrency Trading[1,2]

- IBKR clients can seamlessly trade crypto on the **same platform** as global stocks, options, futures, currencies, bonds, prediction markets, and mutual funds
- **Growing token lineup**, now with 20 tokens for spot trading
- **Bidirectional funding** via stablecoin with USDC, PYUSD, RLUSD
- Transfer existing cryptocurrency holdings **directly** onto the IBKR platform **without liquidating existing positions**
- Access to **Coinbase derivatives** provides trading in nano-sized crypto contracts and perpetual-style futures
- **Low commissions** of 0.12% - 0.18% of trade value, depending on monthly volume, with a USD 1.75 minimum per order

1. For more details see ibkr.com/crypto
2. Cryptocurrency trade execution and custody are provided by either Paxos Trust Company or Zero Hash LLC depending on the client's account type and country of legal residence
3. All rates as of May 6, 2026. Competitor rates and offers are subject to change without notice. Services vary by firm
4. E*Trade by Morgan Stanley has a fee of 50 basis points (0.50%) per trade
5. Coinbase Advanced Taker Fee of 0.60%
6. Robinhood Crypto spread of 0.85% added to crypto price
7. Fidelity Crypto spread of 1.00% added to crypto price
8. eToro has a 1.00% fee for trading cryptocurrencies, which is added to the market price
9. Gemini ActiveTrader Taker Fee of 1.20%

Recent Enhancements and New Products

International Expansion

- Trading in Korea – provided access to the Korean Stock Exchange and Nextrade (Korea's 12-hour and overnight ATS)
- Expanded crypto trading to clients in Europe

CBOE Binary Options[1]

- Allows clients to take short-dated positions on whether the S&P 500 Index will close at or above a specified strike level

InteractiveBrokers

1. CBOE Binary Options involve significant risk and may not be suitable for all investors. Due to their all-or-nothing payout structure, investors may lose their entire investment. Options involve risk. Please review the Characteristics and Risks of Standardized Options before trading

IBKR Campus[1]

Comprehensive Financial Education and Market Commentary

Traders' Academy

- Online courses on the concepts and tools of financial trading
- Interactive learning courses
- Select courses are available in multiple languages, including Spanish, Chinese, French, German, and Portuguese

IBKR Webinars

- In-depth sessions on current market topics, IBKR tools and more

Student Trading Lab

- A free online resource for educators to introduce their students to trading

Traders' Insight

- Market commentary and analysis from nearly 100 industry pros, including our Chief Strategist, our Senior Economist, and our Head of Climate Analytics

IBKR Quant Blog

- Blog for quantitative professionals on programming, AI, Blockchain and more

IBKR Podcasts

- Topics impacting global markets and trading

IBKR InvestMentor[SM]

Free Microlearning App to Educate the Next Generation of Investors

- **Accessible educational content** for beginner and aspiring investors covering core areas such as stocks, bonds, futures, options, and investment strategies
- **Personalized learning** tailored to users' skill levels and interests
- **Bite-sized lessons** designed for flexible, on-the-go learning
- **Interactive content and quizzes** to reinforce understanding and engagement
- App is available on the Apple App Store and Google Play Store

1. IBKR InvestMentor[SM] is a service of Interactive Academy LLC, an affiliate of IB LLC and majority-owned by IBG LLC. For more details see ibkrinvestmentor.com

Superior Technology: BestX℠

Maximize execution quality, minimize market impact

IBKR BestX℠ is a powerful suite of advanced trading technologies designed to help clients achieve best execution and maximize price improvement while minimizing market impact and maintaining complete control over their orders.

For **IBKR Pro** clients, we **do not sell customer order flow** to high frequency traders. Orders are routed directly to one or more execution venues, including multiple exchanges, dark pools, and IBKR's **own alternative trading system (ATS).**

- ✓ **IBUSOPT**[1], a destination for US options orders where customers can interact with other customers without revealing their trading interests to the market or being subject to adverse selection by market-moving orders
- ✓ **IBKR ATS**, an ATS for US stock and ETF orders where customers can interact with other customers so that both sides receive better prices
- ✓ **IB SmartRouting℠** , designed to search for the best available prices for stocks, options, and combinations across exchanges and dark pools
- ✓ **Advanced Order Types and Algorithms**[2], IBUSOPT[1] and IBKR ATS offer proprietary order types designed to help clients maximize price improvement

InteractiveBrokers

3. “Interactive Brokers Group” and “IBKR” include the Group’s operating subsidiaries

UP-C Corporate Structure

- Interactive Brokers Group, Inc. is the public company that trades on Nasdaq as IBKR. It owns approximately **26.5%** of the membership interests of IBG LLC, which trade publicly
- The remaining **73.5%** of the membership interests are held by management and their affiliates

	June 2026	
Ownership of IBG LLC Membership Interests		
Interactive Brokers Group, Inc. (IBKR)	450.7	26.5%
Noncontrolling interests (IBG Holdings LLC)	1,250.7	73.5%
Total IBG LLC membership interests	**1,701.4 million**	**100.0%**

- Owners of “membership interests” can exchange them for shares of the public company on a one-for-one basis
- Management and their affiliates have the same voting rights as public company holders and vote in proportion to their ownership. There is no supervoting stock

1. Amounts may not add due to rounding

Equity Capital

Solid Foundation for Growth and Resilience

We use capital to:

Support Margin Loans	• Customer credits can be used to fund the bulk of our margin loans, then financing and our own capital is utilized for the rest
Guarantee Trades	• Deposits to guarantee customer trades are required by securities clearing houses (like DTCC in the US) around the world • Can be increased immediately during unusually high-volume trading periods
Observe Regulatory Requirements For Reserve Buffer	• Conservative capital management satisfies securities regulations for maintaining liquid asset buffers and to safeguard client money
Capture Growth Opportunities	• Enter new countries • Introduce new products • Support expansion of client base • M&A
Return Capital to Shareholders	• Consistent quarterly dividend payments while maintaining stable earnings

1.“Interactive Brokers Group” and “IBKR” include the Group’s operating subsidiaries
