PRODUCT PIPELINE DRIVES MID-TERM GROWTH TARGET

Short-term product ramp-up

- 2026 sales on prior year level; impacted by ongoing market dynamics in China
- Product momentum to further unfold in H2 2026 with new model introductions

Mid-term growth targets

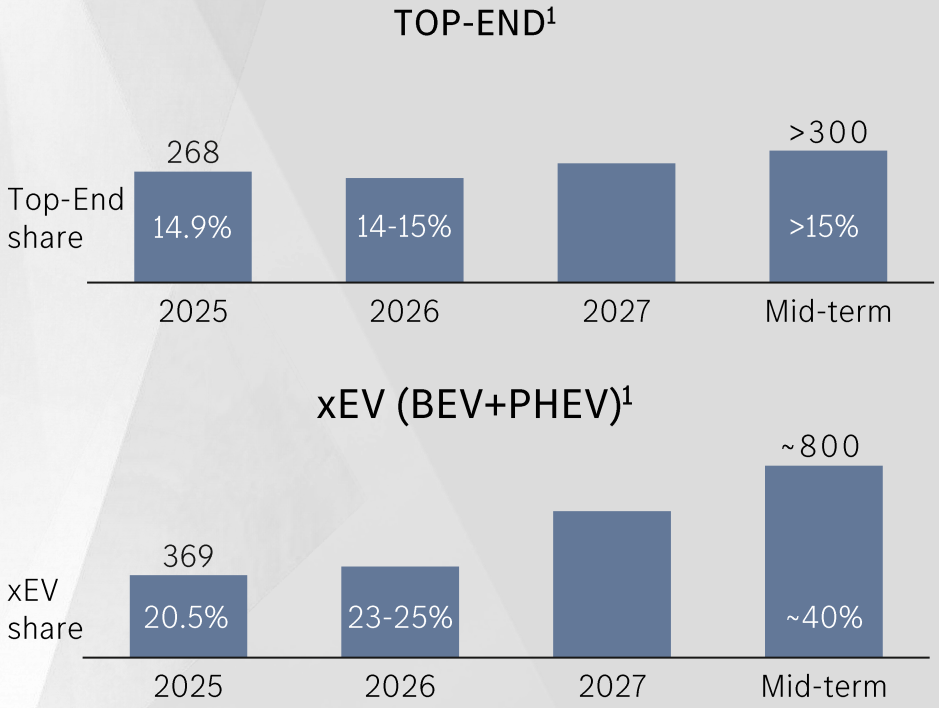

- Targeted sales of ~2.0 million units based on product momentum and market share recovery
- Exploitation of growth opportunities in the USA with attractive new products, particularly in Top-End, as well as in Europe and overseas

China competition and macro

- Adjusting volume to market realities. Closing portfolio white spots with new electric models

PRODUCT SUBSTANCE TRANSLATING INTO SALES AND REVENUE GROWTH

Pricing

- Competitive pricing to support volume growth while safeguarding margins
- Discounts to stabilise and ASP to grow again in mid-term
- Maintain price premium on the back of brand and product strength

Revenue

- Stable revenue development in 2026 in line with sales
- Ambition to grow revenue beyond 2026 driven by product pipeline and portfolio
- CAGR beyond 2026 of ~7% targeted

OUR FUNDING STRATEGY IS BUILT ON STRICT PRINCIPLES

Targeting Financial Independence

- No dependence from single markets, instruments, banks or investors
- Diversification of funding sources and instruments: Bank Loans, Bonds, ABS, Commercial Paper
- No Covenants and asset pledges, no Credit Support Agreements

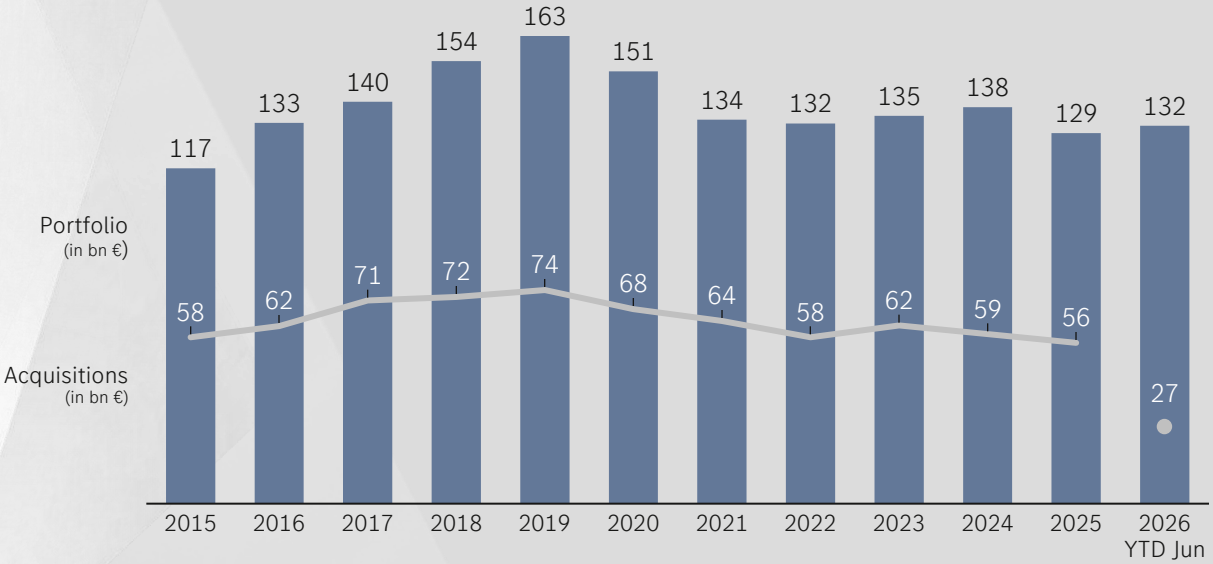

Maximizing Financial Flexibility

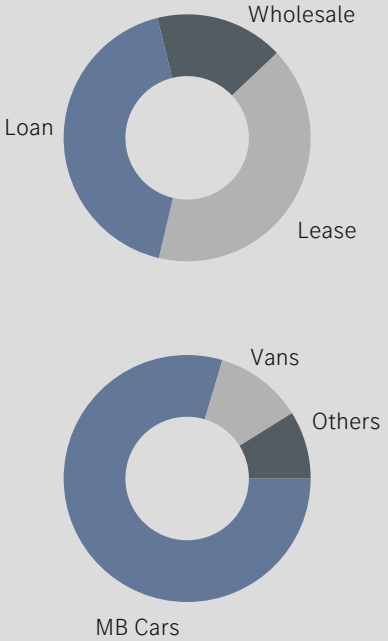

- Keeping prudent amount of Cash and Committed Credit Facility
- New markets funded via global and local banks first
- Early capital market funding to save credit capacity in growth regions

Stringent Global Funding Policy

- Liquidity matched funding
- Interest rate matched funding
- Currency matched funding

PORTFOLIO AT MERCEDES-BENZ FINANCIAL SERVICES SLIGHTLY INCREASED COMPARED TO 2025

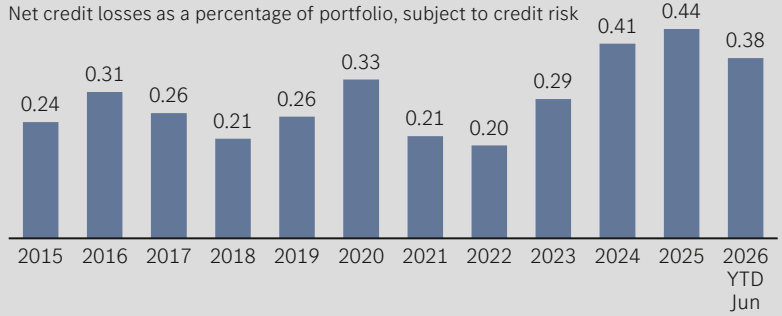

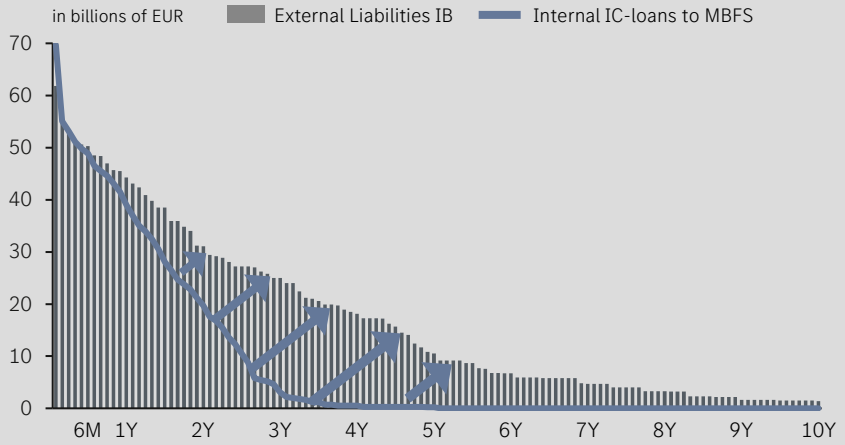

MERCEDES-BENZ FINANCIAL SERVICES BUSINESS WITH STRINGENT CREDIT MANAGEMENT AND SOLID REFINANCING

Net credit losses slightly improved but remained on an elevated level. They are expected to stay on a similar level in the quarters to come.

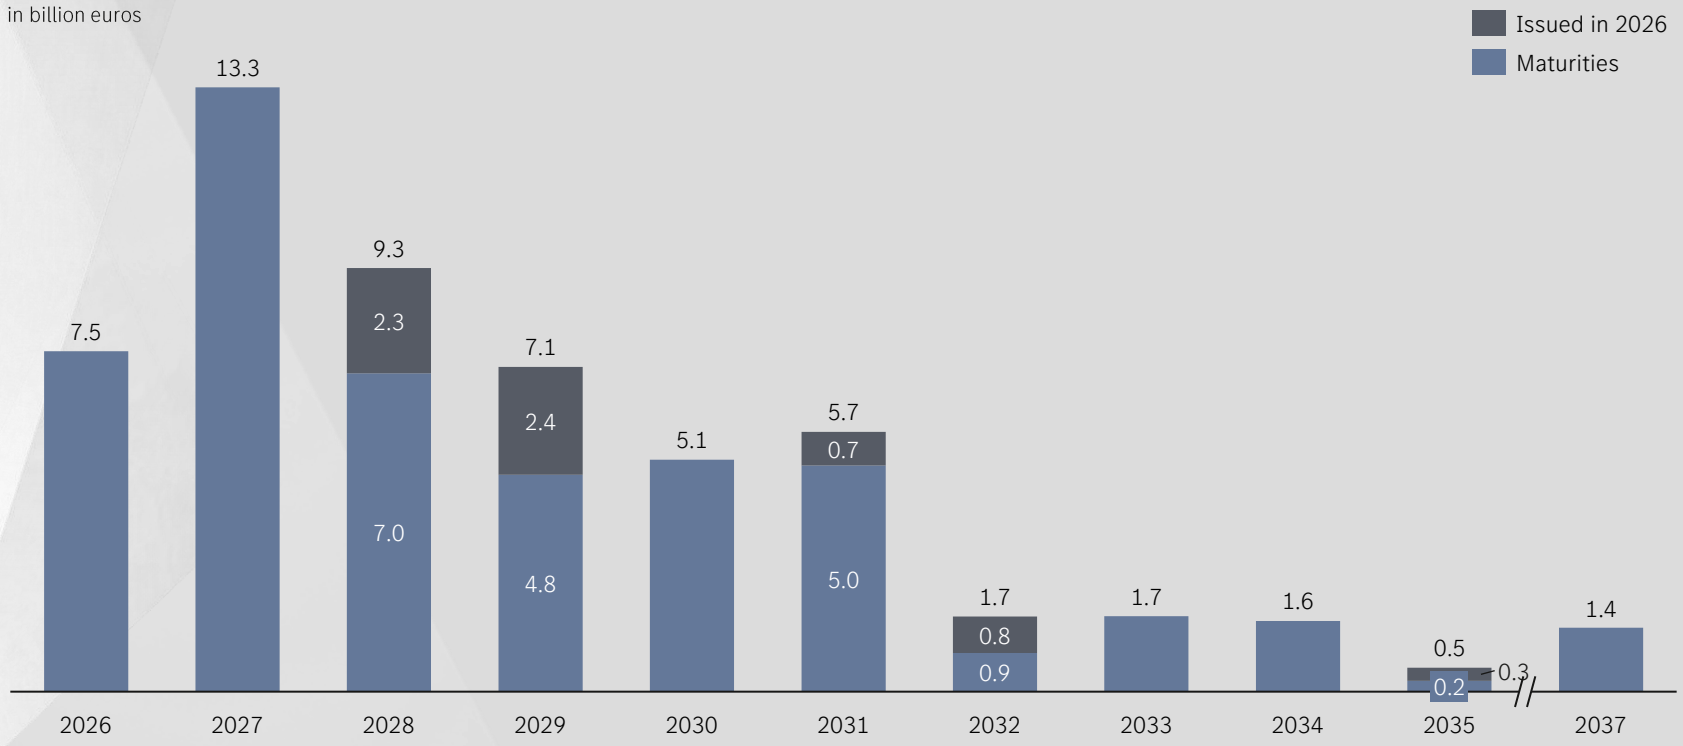

The matched-funded approach for MBFS ensures that liquidity risks are managed.

External liabilities of Mercedes-Benz Group have a longer duration due to capital market refinancing than internal allocation to MBFS via IC-loans.

Disclaimer

This document contains forward-looking statements that reflect current views of the Mercedes-Benz Group about future events. The words “anticipate”, “assume”, “believe”, “estimate”, “expect”, “intend”, “may”, “can”, “could”, “plan”, “project”, “should” and similar expressions are used to identify forward-looking statements. These statements are subject to many risks and uncertainties, material examples of which include (1) an adverse development of global economic conditions, in particular a negative change in market conditions in the most important markets e.g. a shift in consumer preferences towards smaller, lower-margin vehicles; a limited demand for all-electric vehicles; a possible lack of acceptance of products or services which limits the ability to achieve prices and adequately utilize production capacities; a decline in resale prices of used vehicles; (2) the business outlook for companies in which the Mercedes-Benz Group holds a significant equity interest; (3) the successful implementation of strategic cooperations and joint ventures; (4) a deterioration of refinancing possibilities on the credit and financial markets; (5) the effective implementation of cost-reduction and efficiency-optimization measures; and (6) the resolution of pending governmental investigations or of investigations requested by governments and the outcome of pending or threatened future legal proceedings; and other risks and uncertainties, some of which are described under the heading “Risk and Opportunity Report” in the current Annual Report or in the current Interim Report. Further examples for such risks include events of force majeure including natural disasters, pandemics, acts of terrorism, cyber-attacks, political unrest, armed or other conflicts, industrial accidents and their effects on sales, purchasing, production or financial services activities; changes in currency exchange rates, customs and foreign trade provisions; changes in laws, regulations and government policies (or changes in their interpretation), particularly those relating to vehicle emissions, fuel economy and safety or to the communication regarding sustainability topics (environmental, social or governance topics); price increases for fuel, raw materials or energy; disruption of production due to shortages of materials or energy, labour strikes or supplier insolvencies. If any of these risks and uncertainties materializes or if the assumptions underlying any of our forward-looking statements prove to be incorrect, the actual results may be materially different from those we express or imply by such statements. The Mercedes-Benz Group does not intend or assume any obligation to update these forward-looking statements since they are based solely on the circumstances at the date of publication.
