TransUnion

News Release

TransUnion Announces Strong Second Quarter 2021 Results

- Delivered strong growth, reflecting meaningful economic recovery in most of our markets and the benefits of our diversified, growth-oriented portfolio.
- Increased full year 2021 financial guidance to reflect second quarter out-performance and a more bullish view of the remainder of the year.
- Continuing to strategically invest to position TransUnion for long-term sustained growth.

CHICAGO, July 27, 2021 - TransUnion (NYSE: TRU) (the "Company") today announced financial results for the quarter ended June 30, 2021.

Second Quarter 2021 Results

Our results for the second quarter of 2021 reflect significant improvements in demand for our services in most of the markets where we operate, including from improving macroeconomic conditions, that impact the comparability of results between periods.

Revenue:

- Total revenue for the quarter was $774 million, an increase of 22 percent (20 percent on a constant currency basis, 19 percent on an organic constant currency basis) compared with the second quarter of 2020.

Earnings:

- Net income attributable to TransUnion was $128 million for the quarter, compared with $69 million for the second quarter of 2020. Diluted earnings per share was $0.66, compared with $0.36 for the second quarter of 2020. Our second quarter 2021 net income attributable to TransUnion and diluted earnings per share were significantly impacted by a net expense reduction of $32.4 million (less an offsetting $8.1 million tax provision) for the legal matter described in "Legal Proceedings Update" below.
- Adjusted Net Income was $185 million for the quarter, compared with $127 million for the second quarter of 2020. Adjusted Diluted Earnings per Share for the quarter was $0.96, compared with $0.66 for the second quarter of 2020.
- Adjusted EBITDA was $319 million for the quarter, an increase of 31 percent (29 percent on a constant currency basis, 29 percent on an organic constant currency basis) compared with the second quarter of 2020. Adjusted EBITDA margin was 41.1 percent, compared with 38.2 percent for the second quarter of 2020.

"TransUnion delivered another very strong quarter as we have seen economic recovery continue to accelerate in most of our markets and are realizing the benefits of our strong, diversified portfolio," said Chris Cartwright, President and CEO. "We have experienced significant recovery across most of our markets in the first six months of the year. Looking forward, we expect to continue to see market improvements in the second half of 2021 and we expect our organic growth to continue to outperform our underlying markets. At the same time, we recognize the continued challenges in many of our markets as the pandemic persists and continue to focus on the welfare of our employees and their families during this difficult time."

"We also hold an advantageous position with significant balance sheet flexibility to invest in our business, pursue strategic acquisitions and deleverage our balance sheet. We remain committed to funding attractive growth opportunities to help TransUnion continue to deliver top-tier revenue growth at an attractive and expanding margin over the long-term while also remaining focused on the positive impact we can have on our associates, our communities, and all of our stakeholders," Cartwright concluded.

Second Quarter 2021 Segment Results

U.S. Markets:

U.S. Markets revenue was $485 million, an increase of 20 percent (18 percent on an organic basis) compared with the second quarter of 2020.

- Financial Services revenue was $271 million, an increase of 22 percent compared with the second quarter of 2020.
- Emerging Verticals revenue, which includes Healthcare, Insurance and all other verticals, was $214 million, an increase of 17 percent (13 percent on an organic basis) compared with the second quarter of 2020.

Adjusted EBITDA was $209 million, an increase of 22 percent (24 percent on an organic basis) compared with the second quarter of 2020.

International:

International revenue was $172 million, an increase of 44 percent (32 percent on a constant currency basis) compared with the second quarter of 2020.

- Canada revenue was $34 million, an increase of 41 percent (25 percent on a constant currency basis) compared with the second quarter of 2020.
- Latin America revenue was $26 million, an increase of 51 percent (46 percent on a constant currency basis) compared with the second quarter of 2020.
- United Kingdom revenue was $53 million, an increase of 36 percent (20 percent on a constant currency basis) compared with the second quarter of 2020.
- Africa revenue was $15 million, an increase of 69 percent (37 percent on a constant currency basis) compared with the second quarter of 2020.
- India revenue was $28 million, an increase of 58 percent (54 percent on a constant currency basis) compared with the second quarter of 2020.
- Asia Pacific revenue was $16 million, an increase of 27 percent (27 percent on a constant currency basis) compared with the second quarter of 2020.

Adjusted EBITDA was $72 million, an increase of 93 percent (75 percent on a constant currency basis) compared with the second quarter of 2020.

Consumer Interactive:

Consumer Interactive revenue was $137 million, an increase of 6 percent compared with the second quarter of 2020.

Adjusted EBITDA was $65 million, an increase of 5 percent compared with the second quarter of 2020.

Liquidity and Capital Resources

Cash and cash equivalents were $526 million at June 30, 2021 and $493 million at December 31, 2020. In addition, we had $300 million of undrawn capacity on our Senior Secured Revolving Credit Facility. For the six months ended June 30, 2021, cash provided by continuing operations was $381 million compared with $379 million in 2020. The increase in cash provided by operations was due primarily to an increase in operating performance and a decrease in interest expense, mostly offset by an increase in working capital. Cash used in investing activities was $146 million compared with $117 million in 2020. The increase in cash used in investing activities was due primarily to an increase in investments in nonconsolidated affiliates and purchases of convertible notes, and an increase in capital expenditures. Capital expenditures were $97 million compared with $88 million in 2020. Cash used in financing activities was $203 million compared with $87 million in 2020. The increase in cash used in

financing activities was due primarily to $85.0 million debt prepayments made in 2021 and an increase in the payments for contingent consideration in 2021.

Third Quarter and Full Year 2021 Outlook

Our guidance is based on a number of assumptions that are subject to change, many of which are outside of the control of the Company, including general macroeconomic conditions and the potential impact of the global COVID-19 pandemic. There are numerous evolving factors that we may not be able to accurately predict. There can be no assurance that the Company will achieve the results expressed by this guidance.

(1) Additional revenue growth assumptions:

a. The impact of changing foreign currency exchange rates is expected to be approximately 1.5 points of benefit for Q3 2021 and FY 2021.

b. The impact of recent acquisitions is expected to be slightly less than 1 point of benefit for Q3 2021 and approximately 0.5 point of benefit for FY 2021.

c. The impact of mortgage is expected to be approximately 4 points of headwind for Q3 2021 and 1.5 points to 2 points of headwind for FY 2021. These impacts are calculated by removing the U.S. mortgage revenue from both the current year and prior year periods.

(2) Additional Adjusted EBITDA assumptions:

a. The impact of changing foreign currency exchange rates is expected to be approximately 1.5 points of benefit for Q3 2021 and 1.5 points of benefit for FY 2021.

(3) Constant currency growth rates assume foreign currency exchange rates are consistent between years. This allows financial results to be evaluated without the impact of fluctuations in foreign currency exchange rates.

(4) Organic constant currency growth rates are constant currency growth excluding inorganic growth. Inorganic growth represents growth attributable to the first twelve months of activity for recent business acquisitions.

(5) For a reconciliation of the above non-GAAP financial measures to the most directly comparable GAAP financial measures, refer to Schedule 6 of this Earnings Release.

Legal Proceedings Update

In December 2020, the United States Supreme Court granted the Petition for *Certiorari* for *Ramirez v. Trans Union LLC* (the "Ramirez Litigation") to review whether Article III of the United States Constitution or Rule 23 of the Federal Rules of Civil Procedure permit a damages class action where the vast majority of the class suffered no actual injury, let alone an injury anything like what the class representative suffered.

On June 25, 2021, the United States Supreme Court's decision reversed the Ninth Circuit opinion, and remanded the matter back to the lower courts for further proceedings consistent with its opinion. The United States Supreme Court's opinion held that only plaintiffs who have suffered a concrete harm by a defendant's statutory violation have Article III standing to seek damages against defendants in Federal court. Based on the ruling, only approximately 23% of the class was determined to have suffered concrete harm. Accordingly, as of June 30, 2021, we revised the amount of the probable loss that we previously estimated, resulting in a reduction of our estimated liability and partially offsetting insurance receivable, with a $32.4 million net reduction recorded in selling, general and administrative expense. We also recorded a related income tax expense of $8.1 million in our provision for income taxes.

See Part I, Item 1, Note 14, "Contingencies" in our Quarterly Report on Form 10-Q for the period ended June 30, 2021, for additional information about the Ramirez Litigation. There was no impact on Adjusted EBITDA or Adjusted Net Income as the net impact of this matter was added back to these non-GAAP financial measures as presented in the tables below.

Non-GAAP Financial Measures

This earnings release presents constant currency growth rates assuming foreign currency exchange rates are consistent between years. This allows financial results to be evaluated without the impact of fluctuations in foreign currency exchange rates. This earnings release also presents organic constant currency growth rates, which assumes

consistent foreign currency exchange rates between years and also eliminates the impact of our recent acquisitions. This allows financial results to be evaluated without the impact of fluctuations in foreign currency exchange rates and the impacts of recent acquisitions.

This earnings release also presents Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Effective Tax Rate, Adjusted Net Income (Loss) and Adjusted Diluted Earnings per Share for all periods presented. These are important financial measures for the Company but are not financial measures as defined by GAAP. We present Adjusted EBITDA and Adjusted Net Income as supplemental measures of our operating performance because these measures eliminate the impact of certain items that we do not consider indicative of our cash operations and ongoing operating performance. Adjusted EBITDA is also a measure frequently used by securities analysts, investors and other interested parties in their evaluation of the operating performance of companies similar to ours. Our board of directors and executive management team use Adjusted EBITDA as compensation measures. Under the credit agreement governing our Senior Secured Credit Facility, our ability to engage in activities such as incurring additional indebtedness, making investments and paying dividends is tied to a ratio based on Adjusted EBITDA. These financial measures should be reviewed in conjunction with the relevant GAAP financial measures and are not presented as alternative measures of GAAP. Other companies in our industry may define or calculate these measures differently than we do, limiting their usefulness as comparative measures. Because of these limitations, these non-GAAP financial measures should not be considered in isolation or as substitutes for performance measures calculated in accordance with GAAP, including operating income, operating margin, effective tax rate, net income (loss) attributable to the Company, earnings per share or cash provided by operating activities. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are presented in the attached Schedules.

We define Adjusted EBITDA as net income (loss) attributable to TransUnion plus net interest expense, plus (less) provision (benefit) for income taxes, plus depreciation and amortization, plus stock-based compensation, plus mergers, acquisitions, divestitures and business optimization-related expenses, plus certain accelerated technology investment expenses to migrate to the cloud, plus (less) certain other expenses (income). We define Adjusted Net Income as net income (loss) attributable to TransUnion plus stock-based compensation, plus mergers, acquisitions, divestitures and business optimization-related expenses, plus certain accelerated technology investment expenses, plus (less) certain other expenses (income), plus amortization of certain intangible assets, plus or minus the related changes in provision for income taxes. We define Adjusted Diluted Earnings per Share as Adjusted Net Income divided by the weighted-average diluted shares outstanding. The above definitions apply to our calculations for the periods shown on Schedules 1 through 6.

Forward-Looking Statements

This earnings release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the current beliefs and expectations of TransUnion's management and are subject to significant risks and uncertainties. Actual results may differ materially from those described in the forward-looking statements. Any statements made in this earnings release that are not statements of historical fact, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include information concerning possible or assumed future results of operations, including our guidance and descriptions of our business plans and strategies. These statements often include words such as "anticipate," "expect," "guidance," "suggest," "plan," "believe," "intend," "estimate," "target," "project," "should," "could," "would," "may," "will," "forecast," "outlook," "potential," "continues," "seeks," "predicts," or the negative of these words and other similar expressions. Factors that could cause actual results to differ materially from those described in the forward-looking statements include: the effects of the COVID-19 pandemic; the duration of the COVID-19 pandemic and the timing of the recovery from the COVID-19 pandemic; the prevalence and severity of variants of the COVID-19 virus; macroeconomic and industry trends and adverse developments in the debt, consumer credit and financial services markets; our ability to provide competitive services and prices; our ability to retain or renew existing agreements with large or long-term customers; our ability to maintain the security and integrity of our data; our ability to deliver services timely without interruption; our ability to maintain our access to data sources; government regulation and changes in the regulatory environment; litigation or regulatory proceedings; regulatory oversight of "critical activities"; our ability to effectively manage our costs; economic and

political stability in the United States and international markets where we operate; our ability to effectively develop and maintain strategic alliances and joint ventures; our ability to timely develop new services and the market's willingness to adopt our new services; our ability to manage and expand our operations and keep up with rapidly changing technologies; our ability to make acquisitions, successfully integrate the operations of acquired businesses and realize the intended benefits of such acquisitions; our ability to protect and enforce our intellectual property, trade secrets and other forms of unpatented intellectual property; our ability to defend our intellectual property from infringement claims by third parties; the ability of our outside service providers and key vendors to fulfill their obligations to us; further consolidation in our end-customer markets; the increased availability of free or inexpensive consumer information; losses against which we do not insure; our ability to make timely payments of principal and interest on our indebtedness; our ability to satisfy covenants in the agreements governing our indebtedness; our ability to maintain our liquidity; share repurchase plans; our reliance on key management personnel; and other one-time events and other factors that can be found in our Annual Report on Form 10-K for the year ended December 31, 2020, and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K, which are filed with the Securities and Exchange Commission and are available on TransUnion's website (www.transunion.com/tru) and on the Securities and Exchange Commission's website (www.sec.gov). Many of these factors are beyond our control. The forward-looking statements contained in this earnings release speak only as of the date of this earnings release. We undertake no obligation to publicly release the result of any revisions to these forward-looking statements to reflect the impact of events or circumstances that may arise after the date of this earnings release.

In addition to factors previously disclosed in TransUnion's reports filed with the Securities and Exchange Commission and those identified elsewhere in this press release, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: failure to realize the benefits expected from the recent business acquisitions; the effects of pending and future legislation; risks related to disruption of management time from ongoing business operations due to the recent business acquisitions; macroeconomic factors beyond TransUnion's control; risks related to TransUnion's indebtedness and other consequences associated with mergers, acquisitions and divestitures, and legislative and regulatory actions and reforms.
